Upper Red Lake Fishing Regulations
(These regulations also apply to Tamarac River and Shotley Brook)

Effective January 23, 2015

**Walleye**

- Daily bag/possession limit = 2 fish

Note: A statewide possession limit may only include two Red Lake walleye (only one larger than 26 inches).

**Protected Slot Limit**

- All fish 17 to 26 inches must be released

**Possession and on-the-water consumption**

- While on the ice, all harvested walleye and northern pike must be intact and measurable, unless a person is in the act of preparing the fish for a meal on the ice.

- If walleye or northern pike are prepared for a meal, anglers are required to retain measurable carcasses, which count toward the possession limit for the remainder of the fishing day.

- Do not allow whole fish or carcasses to freeze together in buckets or bags since both need to be measurable. Pack them in snow or ice shavings in a bucket or cooler inside the fish house or vehicle to prevent freezing.

- Anglers are required to properly dispose of carcasses before harvesting additional fish the following day. It is illegal to dispose of fish carcasses on or under the ice.

**Northern pike**

- Daily bag/possession limit = 3 fish
  (Only one larger than 44 inches)

- All fish 26 to 44 inches must be released

Notice: The Red Lake Nation has stocked lake sturgeon into Lower Red Lake annually since 2007. Currently, these fish range up to 36 inches in length, and are protected on all waters of the Red Lakes. If you catch one, it must be immediately returned to the water.
Boundary Information

Those portions of Red Lake located within the Red Lake Indian Reservation are closed to non-band members except by special authorization of the tribal council.

When fishing near the reservation boundary, using a GPS unit will ensure compliance.

State anglers: The actual boundary is not a true north-south line. To simplify, it is recommended that State anglers stay east of the longitudinal coordinate of 94° 43’ 12.0” W to ensure they are on State waters.

Everyone fishing near the boundary is responsible for knowing his/her location.

Unless licensed to do so, it is unlawful in the state of Minnesota to buy or sell game fish, whitefish, or cisco. The exceptions are smelt and fish obtained under a commercial, private hatchery, or aquatic farm license. If you are approached with or witness such illegal activity, please call TIP, Inc. or a local conservation officer with details.
