Location

Primary County: Waseca
Nearest City:
Township:
Project Site Name: Leo Boucher, Gary Worke
Project Site Land Ownership: Private
Other Land Ownership:

Project Information

Primary Activity: Restoration
Primary Habitat Type: Wetland
Total Project Acres: 109
Total Project Sites: 2
Total Grant Amount Requested: \$395652
Total Match Amount: \$43961
Total Project Cost: \$439613
Project Completion Date: 12/2011 (MM/YYYY)
Project Summary and Outcomes: Establishment of conservation easements on 109 acres will allow wetland and stream restoration which benefit watershed function and fish and wildlife habitat.

Time frame	Goal	Time frame	Goal
Summer 2010	Complete easements		

Project description and benefits (box will expand as typed into, not to be longer than 2 pages):

The securing of perpetual conservation easements on these two sites is a necessary first step toward restoration of wetland and watershed function. Wetland restoration will be done separately, following the easement establishment.

Site 1 - consists of 38.5 acres in the Cannon River watershed. There are 6 drained, restorable wetland basins covering 7 acres. These basins will be restored; the remaining 31.5 acres will be planted to prairie using a diverse mix of native forbs and grasses.

Site 2 - consists of 70.5 acres on Bull Run Creek in the Le Sueur River watershed. There are 11 acres of drained, restorable, riverine wetland on the site. This wetland will be restored; the remaining 59.5 acres will be planted to prairie using a diverse mix of native forbs and grasses. In addition to wetland restoration, there may be a subsequent opportunity to restore the straightened and channelized stream to its natural meandering channel.

Both of these restorations will measurably contribute to the restoration of watershed function in the impaired Cannon and Le Sueur River watersheds. The Le Sueur River, in particular, has been shown to be a major contributor of sediment to the Minnesota River. Impairment of watershed function resulting from widespread agricultural drainage will be corrected incrementally, by carrying out numerous projects like these across these watersheds.

In addition to water-quality and watershed-function benefits, restoration of these sites will provide substantial aquatic habitat benefits for fish and wildlife.

Please provide the answers to the following questions. Boxes will expand as typed into.

1. For lands acquired in fee title that will be turned over to a public agency for long-term management:

- a. Provide a description of the work necessary to bring the land up to agency standards and an estimate of the associated cost.

n/a

- b. What short- and long-term work is required to manage the land you acquire?

n/a

2. For enhancement/ restoration projects on public lands:

- a. Who is/will be the long-term manager for the project site?

n/a

- b. What short- and long-term maintenance work is required to sustain the habitat work you will do?

n/a

- c. Who will complete this maintenance work, and how will it be funded?

n/a

- d. Will the CPL funds supplant any existing funds?

n/a

As required by 2009 MN Session Law, Chapter 172 subd. 10 (8), “any agency or entity receiving an appropriation must, for any project funded in whole or in part with funds from the appropriation, give consideration to and **make timely written contact with the Minnesota Conservation Corps** for consideration of possible use of their services to contract for restoration and enhancement services”. Contact MCC at cplg@conservationcorps.org, or email a copy of this form to the same address. For more information on costs, crew capabilities, etc., visit MCC’s website at <http://www.conservationcorps.org/useacrew.html>.

Signature:

I certify that I have read the Conservation Partners Legacy Grants Program **Request for Proposal, Program Manual** and other program documents, and have discussed this project with the appropriate public land manager, or private landowner and easement holder. I am authorized to apply for and manage these grant and match funds, and the project work by the organization or agency listed below. I have made timely written notification to MCC regarding my restoration or enhancement project.

Please save this document to your computer or electronic storage device and attach this document as specified on the online submittal form when ready to apply. Contact [CPL Grant Staff](#) with any questions.

CPL Project Application Review and Approval Form

REVIEWER INFORMATION

Land manager/ easement holder name:	BWSR		
Title:	Tabor Hoek, BWSR	Date of meeting:	10-29-09
Phone:	507-537-7260	Proposal ID #:	
Email:	tabor.hoek@state.mn.us	(assigned by agency, optional)	

PROJECT INFORMATION:

Project Name:	Waseca Conservation Easements - 2	Organization:	Waseca SWCD
Contact Person:	Marla Watje		
Email:	marla.watje@mn.nacdnet.net	Daytime Phone:	507-835-4800

Please check the appropriate boxes:

- I have read the application and discussed this proposed project with the above listed Organization Contact Person.
- For work on easements, the private landowner has been contacted and has given support and approval for this project.

I have performed a Natural Heritage Database review and found:

- this project to have no features within one mile.
- this project to have features within one mile, but project is not likely to adversely affect those features. I have recommended the following minimization strategy:

Natural Heritage Review was completed on 10-27-09 by Joe Stangel, MNDNR Private Lands Specialist.

- this project is likely to adversely affect Natural Heritage features. I feel that this project is important and should be forwarded to DNR Ecological Resources staff for further review.
- I do not have access to the Natural Features database and will forward this completed form to DNR within 3 business days to [CPL Staff](mailto:CPLStaff@LSCPLGrants.DNR@dnr.state.mn.us) at LSCPLGrants.DNR@dnr.state.mn.us for review.

I have discussed what role my office will be expected to have in this project and find that the project, as described will require:

- minimal or no involvement from my office for completion.
- a commitment of involvement by staff that is reasonable and can be accomplished with current staffing levels and workload.

- an amount of staff involvement that cannot be committed during the project time period with current staffing levels. Unless additional staffing can be committed from other offices, Divisions or appropriate partners, I feel this project cannot be completed within the project timeline to our desired standards.

CPL Project Application Review and Approval Form

- I have discussed permits and applications that the applicant may be responsible for using the Working on DNR Lands and Working on Public Lands, or Working on Private Lands documents.

Upon final review of this project:

- I find this project to be consistent with sound conservation science. This work will benefit area fish, game and wildlife by restoring, enhancing or protecting forests, wetlands, prairies and habitat and is consistent with the management or stewardship plan for this land. (APPROVAL)
- I find that this project does not follow the management or stewardship plan for this land and does not fit within the long range goals for this land at this time on the local level. (DECLINE)
- I find that this project should be sent up to a higher level within the agency for further review and decision. I have forwarded the Project Planning Form and this Review and Approval Form for further review to:

Name:		Phone:	
-------	--	--------	--

- By checking this box and typing my name below I certify that I have met with the above applicant and discussed the proposed project and have provided feedback to the applicant.**
