and the

**Minnesota
Twins**

Partnership Planting Locations

**Over 18,000
trees planted so far!**

For the second year in a row, the Minnesota Department of Natural Resources, Parks and Trails, and the Minnesota Twins have partnered to make Minnesota a better place! With the Break a Bat, Plant a Tree program, 100 trees are planted every time a Twins pitcher breaks an opponent's bat. The DNR has also partnered with the Twins in relocating some of the black spruce trees that were originally planted in Target Field.
