Birding Opportunities at Big Bog State Recreation Area

The unique "Big Bog" – also known as the Red Lake Bog – has now become accessible to the public and birders with the building of a boardwalk. This boardwalk extends for one mile out into the bog and allows visitors to experience this magnificent habitat up close. One walk taken in mid-June gives an idea of the outstanding birding to be experienced on the boardwalk. In one five-minute span the following species were seen or heard: Lincoln's sparrow, yellow-bellied flycatcher, palm warbler, olive-sided flycatcher, Connecticut warbler, northern hawk owl, Philadelphia vireo, golden-crowned kinglet, boreal chickadee, Nashville warbler, veery, yellow-rumped warbler and alder flycatcher. The southern segment of the recreation area borders on Red Lake and also offers good birding, but a different type of birding from the bog. A red knot and several species of shorebirds have been seen along the shore of the lake plus great egret and numerous species of ducks, gulls and terns. The area around the headquarters is also a great place for birds, with over 25 species of warblers and vireos recorded in this location.

Season and Abundance Key

The **seasons** in the checklist are defined as follows:

Sp (Spring) = March, April, May

Su (Summer) = June, July

Fa (Fall) = August, September, October, November

Wi (Winter) = December, January, February

Abundance codes are defined as follows:

C = Common — present, relatively easy to find

U = Uncommon — observed, may be difficult to find

O = Occasional — may or may not be present in any year

R = Rare — has occurred at least once, may or may not be expected to recur

The names and taxonomic arrangement of species follows that of the Checklist of the Birds of Minnesota (January, 2001), prepared by the Minnesota Ornithological Records Committee.

This checklist contains the names of all birds that have been documented in the park by reliable observers. It was constructed by Robert B. Janssen, Jerry Bonkoski, and the MN DNR-Division of Parks & Recreation using observations of the above, park staff and other observers, as well as Minnesota Ornithologist's Union records and data contained in research reports. If you are interested in the specific sources used for a particular park, contact the Parks Division Resource Management Program Coordinator by telephone at 651-259-5594 or by mail at MN DNR-Parks, 500 Lafayette Road, Box 39, St. Paul, MN 55155-4039.

Equal opportunity to participate in and benefit from programs of the Minnesota Department of Natural Resources is available to all individuals regardless of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, age, sexual orientation, membership or activity in a local commission, or disability. Discrimination inquiries should be sent to the Minnesota Department of Natural Resources, 500 Lafayette Road, St. Paul, MN 55155-4031; or the Equal Opportunity Office, Department of the Interior, Washington, D.C. 20240.

This document is available in alternative formats to individuals with disabilities by calling 651-297-1158.
