

## Birding at Forestville-Mystery Cave S.P.

Come explore the varied landscape of this beautiful park. Upland forests and forested stream valleys proved excellent habitat for a number of bird species. A springtime visit to Forestville is a great opportunity to see warblers migrating through the park.

In the summer time, take a hike to Big Spring. The cool spring fed valley provides excellent habitat for a wide variety of birds. You might even catch a glimpse of an elusive Acadian Flycatcher or Louisiana Waterthrush along the way.
