Birding at Frontenac State Park

The park's diverse habitat along the Mississippi River makes it a premier birding area. It has the highest species count (273) of any park in the state.

Visit Sand Point for shorebirds. Go to Lake Pepin for waterfowl, gulls and terns. Hike prairie trails for the Henslow's sparrow, grasshopper sparrow, bobolink or sedge wren. Visit in May for the migration of warblers, vireos, flycatchers, thrushes, tanagers and sparrows.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
