## Birding Opportunities at Jay Cooke State Park

With the St. Louis River running through it, this 8,000-acre park lies at the edge of the boreal forest zone. Because of this and its proximity to Lake Superior, it attracts a wide variety of bird species. There are at least 20 species of neotropical warblers that nest within the park. The park is known for its winter bird species such as pine and evening grosbeak, common and hoary redpoll, purple finch and red and white-winged crossbill. There are numerous trails throughout the park to accommodate birdwatching.

### Season and Abundance Key

The **seasons** in the checklist are defined as follows:

**Sp** (Spring) = March, April, May

**Su** (Summer) = June, July

Fa (Fall) = August, September, October, November

Wi (Winter) = December, January, February

#### Abundance codes are defined as follows:

**C** = Common — present, relatively easy to find

**U** = Uncommon — observed, may be difficult to find

O = Occasional — may or may not be present in any year

R = Rare — has occurred at least once, may or may not be expected to recur

The names and taxonomic arrangement of species follows that of the Checklist of the Birds of Minnesota (January, 2001), prepared by the Minnesota Ornithological Records Committee.

This checklist contains the names of all birds that have been documented in the park by reliable observers. It was constructed by Robert B. Janssen and the MN DNR-Division of Parks & Recreation using observations of Mr. Janssen, park staff and other observers, as well as Minnesota Ornithologist's Union records and data contained in research reports. If you are interested in the specific sources used for a particular park, contact the Parks Division Resource Management Program Coordinator by telephone at 651-297-1158 or by mail at MNDNR-Parks, 500 Lafayette Road, Box 39 St. Paul, MN 55155-4039.

Equal opportunity to participate in and benefit from programs of the Minnesota Department of Natural Resources is available to all individuals regardless of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, age, sexual orientation, membership or activity in a local commission, or disability, Discrimination inquires should be sent to the Minnesota Department of Natural Resources, 500 Lafayette Road, St. Paul, MN 55155-4031; or the Equal Opportunity Office, Department of the Interior, Washington, D.C. 20240."
