Checklist created by Robert B. Janssen, Jerry Bonkoski and MNDNR. Data was gathered from MNDNR staff observations, public observations and Minnesota Ornithologist's Union records. Nomenclature and organization of checklist based off of the *Check-list of North American Birds* (7th edition) as currently supplemented.

BIRD CHECKLIST

LAKE CARLOS STATE PARK

Birding at Lake Carlos State Park

The park's diverse habitat includes lakeshore, wetlands, woodlands and grasslands that make it a popular birding destination. A staff favorite is to walk along the lake from the beach to Hidden Lake Group Camp where you can find more than 50 species in the spring (mid-May). During migration, large numbers of warblers, vireos, flycatchers, thrushes and sparrows move through the park's woodland and grassland areas.

The Prairie Pothole, Hidden Lake and Wetland Overlook trails are excellent for water bird viewing. Watch for waterfowl on Lake Carlos and along the Long Prairie River during late fall through early spring.

Key

Occurrence

Sp - Spring (Mar—May)

S - Summer (Jun—Jul)

F - Fall (Aug—Nov)

W - Winter (Dec—Feb)

Abundance

C - Common (Present, relatively easy to find)

U - Uncommon (Present, not certain to be seen)

O - Occasional (Infrequent, may not return each year)

R - Rare (Observed at least once, may not return)

Date: Enter the date you saw the bird.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
