

Minnesota Department of Natural Resources Plant Checklist - November 2013

<u>Column</u>	<u>Definition</u>
Family	The family of plants to which the taxon belongs.
MN DNR Scientific Name	Nomenclature follows that of published volumes of "Flora of North America" (FNA). For those families not yet published by FNA, nomenclature follows that of Gleason & Cronquist's "Manual of Vascular Plants of Northeastern United States and Canada".
Common name	The preferred MNDNR common name.
Physiognomy	B = broadleaf evergreen, D = broadleaf deciduous, E = needleleaf evergreen, G = graminoid, H = forb, L = lichens and moss, C = climber, K = stem succulent, X = epiphyte, F = floating aquatic, S = submerged aquatic
Native Status	N = native to the state of MN, I = Introduced, U = Undetermined
Rarity Status	State Rarity Status: E = Endangered, T = Threatened, SC = Special Concern, W = Watch List, H = Historical
Invasive Status	FN = Federal noxious weed, SN = State prohibited noxious weed, RN = State restricted noxious weed, PI = DNR Prohibited invasive species, PS = State prohibited weed seed, RS = State restricted weed seed
