READ THIS LETTER CAREFULLY

FILL OUT THE PRE-REGISTRATION FORM
AND BRING WITH YOU TO THE CLINIC YOU ATTEND
ALONG WITH CLINIC FEE

June 2015

DNR – Enforcement
Advanced Hunter Education Program
15011 State Highway 115
Little Falls, MN  56345-4173

Dear Bear Hunter:

Exciting clinics have been designed by bear hunters and research personnel to provide you with an in-depth look at the Minnesota black bear. By attending a clinic, you will learn what to look for when scouting for bear, select bait sites, and bait bear based on the principle of timing and quality. The clinic will also include the latest regulations and help answer your bear questions.

After attending one of these clinics, you should have a better understanding of the behavior of black bear and their habitat needs. You will learn techniques that will eliminate protective surveillance, old bait burnout, and cut down on nocturnal bears. 35% of Minnesota bear hunters harvest a bear. These techniques will increase your hunting enjoyment and success. An up-to-date black bear handbook will be given to all participants at the clinics. There is no age restriction for attending a clinic.

1. Find the clinic that you are interested in attending and mark it on your calendar.

2. **Fill out the registration form completely and bring to the clinic you attend.**

3. Contact the Instructor if requested.

4. Bring the $5.00 fee (some clinics may charge extra for refreshments and room cost). Make checks payable to: DNR-Advanced Hunter Education.

6. If you are unable to attend a clinic, a Bear Clinic CD is available by calling the DNR at 1-888-646-6367.
