

## Waters Connected to Leech Lake

Lake	Miles To Leech	Walleye Stocking
Steamboat	4.3	532,000 fry even yrs/532 lbs fgl odd yrs
Portage (11-204) (Bena)	2.9	1348 lbs fgl every other year
Inguadona	17.3	1130 lbs fgl every other year
Lower Trelipe	21	712 lbs fgl every other year
Little Boy	22.7	800,000 fry every other year
Wabedo	25.5	590 lbs fgl every other year
Baby	35.9	496 lbs fgl every other year
Pleasant	42.9	820 lbs fgl every other year
Birch	47.7	1510 lbs fgl every other year
Ten Mile	51.9	2632 lbs fgl every other year
Benedict	0.25	170 lbs fgl every other year (recent change)
Kabekona	5.2	1065 lbs fgl every other year(recent change)

### Other Considerations:

Trapped Steamboat River during spring of 2005 targeting walleye – very few walleye captured.

Leech Lake walleye presently genetically distinct from Boy River and Cutfoot; most likely walleye that could have mixed over time due to stocking in connected lakes.

Fry stocking most likely Women lake Strain, some WAE fgl stocking Women Lake strain, other MISS strain more likely lately, to accommodate Leech fry stocking.
