Information regarding SFI ® and FSC © certification is located in the individual tract listings.

The following pages list the lands upon which the timber is located, the estimated quantities of timber that are offered, and the appraised prices. Full details of harvest specifications are included in a permit's Timber Appraisal Report; only the season of operations, sale conditions, and marketing conditions from the appraisal are included in this notice.

Unsold tracts from Regular Auctions are listed first in this notice, followed by unsold tracts from Intermediate Auctions. Tracts are listed in order by Forestry Office and Permit Number.

MINNESOTA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
REGULAR AUCTION
UNSOLD TRACTS AVAILABLE FOR OVER-THE-COUNTER PURCHASE

TERMS OF SALE

The auction sales(s) was held according to Minnesota Statutes Sections 90.101 and 90.14. Timber shall be offered and sold by the same unit of measure as it was appraised. Sale shall be made to the responsible bidder who pays the appraised price for all timber species advertised on each unsold tract.

ELIGIBLE BIDDERS

Interested persons must be registered at least four (4) business days prior to the purchase of an unsold tract. No bid purchase will be allowed from anyone having a delinquent timber sale account or pending willful timber trespass with any public agency in Minnesota, or from anyone who does not qualify as a Responsible Bidder as defined in Minnesota Statutes Section 90.01, or from anyone who has been debarred for cause by any public agency.

DOWN PAYMENT

Purchasers of timber must pay a down payment of fifteen (15) percent of the appraised value of the timber at the time of purchase. The down payment will be kept on deposit by the State and applied against any billings for timber. The purchaser may elect to have the down payment refunded if they post security for one hundred (100) percent of the bid price of the timber (see Security Required). If the purchaser does not sign the permit document within 60 days of sale purchase, the down payment will forfeit to the State.

PURCHASER QUALIFICATIONS AND REGISTRATION

The purchaser and the purchaser's agents, employees, subcontractors, and assigns must comply with the general industry safety standards for logging adopted by the Commissioner of Labor and Industry and provide proof of compliance with these standards. The purchaser and the purchaser's agents, employees, subcontractors, and assigns must comply with the State of Minnesota mandatory insurance requirements before harvest operations begin. Before the start of harvest operations, the purchaser must certify that a designated foreperson, who will be supervising active logging operations, has a current certificate of completion from a logger education program approved by the Commissioner of Natural Resources.

SECURITY REQUIRED

The purchaser must furnish security equal to the total bid value of the permit, LESS the amount paid as a down payment. Security can be furnished in the following forms: Corporate surety bond, Letter of Credit, certified check, cashier's check, personal check, money order, or by signing a Cutting Block Payment Agreement for individual cutting blocks, at least one business day prior to the start of any permit operations. If the purchaser elects to receive a refund of the down payment, they must furnish security in a form described above, for one hundred (100) percent of the total bid value of the timber purchased. If the deferred cash payment for cutting blocks is selected, the down payment WILL NOT be refunded. If the purchaser elects to secure a permit by prepayment of cutting block(s), they must make a written request on a form provided by the state. No harvesting is permitted until proper security has been furnished to and approved by the Commissioner of Natural Resources or his agent.

PERMIT TERMS

A permit to harvest and remove the timber from state lands will be issued to the purchaser. NO permit shall be issued to anyone other than the purchaser in whose name the purchase was made. All timber purchased on the permit must be harvested prior to the permit expiration date. All permits provide for the continuous identification of timber from the time of cutting until delivery to the consumer. Failure to continuously identify the timber as specified in the permit shall constitute trespass. Also, please note all special regulations that exist on each tract being sold.

Marketing Conditions:

This is a Blowdown Salvage sale. On average 70% of timber throughout permit area has significant lean, crown damage, broken of trees and on the ground.

There are scattered pockets of non damaged trees.

**** Winter Harvest ** Only**

Access is off the Tamarack Forest rd, then south on a Recreational Trail then onto a Winter Haul road

Permit boundary in Block 1 is all natural boundary, and Block 2 is a combinatiion of ribbon and blue paint.

There is a winter road already established that will access the east side of permit.

Portions of permit area was an earlier harvested stand that was a selective cutting. Some of blowdown is the residual trees - primarily oak that is damaged.

Inventory data and nearby timber sale information and some on the ground data was used to determine approximate volumes for permit.

Average diameters of tree species:

- Red Oak 11"
- Aspen 12"
- Paper Birch 10"
- Red and Sugar Maple 9"

Information regarding SFI ® and FSC © certification is located in the individual tract listings.

The following pages list the lands upon which the timber is located, the estimated quantities of timber that are offered, and the appraised prices. Full details of harvest specifications are included in a permit's Timber Appraisal Report; only the season of operations, sale conditions, and marketing conditions from the appraisal are included in this notice.

Unsold tracts from Regular Auctions are listed first in this notice, followed by unsold tracts from Intermediate Auctions. Tracts are listed in order by Forestry Office and Permit Number.

MINNESOTA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
INTERMEDIATE AUCTION
UNSOLD TRACTS AVAILABLE FOR OVER-THE-COUNTER PURCHASE

TERMS OF SALE

The auction sales(s) was held according to Minnesota Statutes Sections 90.101 and 90.14. Timber shall be offered and sold by the same unit of measure as it was appraised. Sale shall be made to the responsible bidder who pays the appraised price for all timber species advertised on each unsold tract.

ELIGIBLE BIDDERS

Interested persons must be registered at least four (4) business days prior to the purchase of an unsold tract. No bid purchase will be allowed from anyone having a delinquent timber sale account or pending willful timber trespass with any public agency in Minnesota, or from anyone who does not qualify as a Responsible Bidder as defined in Minnesota Statutes Section 90.01, or from anyone who has been debarred for cause by any public agency. Purchase of intermediate auction tracts is limited to persons or companies with 30 or fewer employees.

DOWN PAYMENT

Purchasers of timber must pay a down payment of fifteen (15) percent of the appraised value of the timber at the time of purchase. The down payment will be kept on deposit by the State and applied against any billings for timber. The purchaser may elect to have the down payment refunded if they post security for one hundred (100) percent of the bid price of the timber (see Security Required). If the purchaser does not sign the permit document within 60 days of sale purchase, the down payment will forfeit to the State.

PURCHASER QUALIFICATIONS AND REGISTRATION

The purchaser and the purchaser's agents, employees, subcontractors, and assigns must comply with the general industry safety standards for logging adopted by the Commissioner of Labor and Industry and provide proof of compliance with these standards. The purchaser and the purchaser's agents, employees, subcontractors, and assigns must comply with the State of Minnesota mandatory insurance requirements before harvest operations begin. Before the start of harvest operations, the purchaser must certify that a designated foreperson, who will be supervising active logging operations, has a current certificate of completion from a logger education program approved by the Commissioner of Natural Resources.

SECURITY REQUIRED

The purchaser must furnish security equal to the total bid value of the permit, LESS the amount paid as a down payment. Security can be furnished in the following forms: Corporate surety bond, Letter of Credit, certified check, cashier's check, personal check, money order, or by signing a Cutting Block Payment Agreement for individual cutting blocks, at least one business day prior to the start of any permit operations. If the purchaser elects to receive a refund of the down payment, they must furnish security in a form described above, for one hundred (100) percent of the total bid value of the timber purchased. If the deferred cash payment for cutting blocks is selected, the down payment WILL NOT be refunded. If the purchaser elects to secure a permit by prepayment of cutting block(s), they must make a written request on a form provided by the state. No harvesting is permitted until proper security has been furnished to and approved by the Commissioner of Natural Resources or his agent.

PERMIT TERMS

A permit to harvest and remove the timber from state lands will be issued to the purchaser. NO permit shall be issued to anyone other than the purchaser in whose name the purchase was made. All timber purchased on the permit must be harvested prior to the permit expiration date. All permits provide for the continuous identification of timber from the time of cutting until delivery to the consumer. Failure to continuously identify the timber as specified in the permit shall constitute trespass. Also, please note all special regulations that exist on each tract being sold.
