SFX: Whistlers & sizzlers with kabooms

ANNCR:

Fireworks ... as much a part of summer and celebration as good food and good friends.

But, tradition *can* turn to tragedy...if you're not careful.

Know the laws and regulations about fireworks in your area.

Don't use sparklers or fireworks in grassy or forested areas...especially when the weather's dry.

Keep a water source handy and be sure all fireworks are out cold before you dispose of them.

Don't let your fun go up in flames!

TAG:

Help Smokey Bear celebrate his 60th birthday

Prevent wildfires!

Brought to you by the Great Lakes Forest Fire Compact.
