SFX: Lawn Mower

ANNCR:

It's that time of year again.

Time to mow, rake, trim and prune.

But before you're tempted to just burn that stuff; remember, if your fire gets out of control, you're liable for damages to other property and for the cost of putting the fire out.

That could mean hundreds, or even thousands of dollars to pay for fire trucks, fire fighters, helicopters, even air tankers.

So this year, please be careful.

Because when we put out your wildfire, you get the bill
