Provide access for resource management activities and public use. Non-designated Routes on state forest lands classified as Forest Roads may be temporarily closed to motor vehicle use to prevent damage to the road surface. Forest roads on state lands are not considered "public highways" and the managing agency is not a "road authority". On state forest lands, forest roads are primarily for use by hunters on foot, and are referred to as Access Routes and are available for motor vehicle use. Hunter Walking Trails, ATV and OHM Trails, and System Forest Roads are managed for recreational use. Non-designated Routes have gates that are typically closed to restrict access by HLVs but still allow access by ATVs. Some Access Routes are only suitable for motor vehicle use when frozen; use under non-frozen conditions will result in rutting. Access Routes are typically open to use by both HLVs and OHVs. Forest roads on county and private forest lands have an engine displacement of less than 800 cc and total dry weight of less than 900 pounds. Class 1 ATV does not include farm, logging, military, emergency, law enforcement, utility, and motorized flotation vehicles. ORV does not include farm, logging, military, emergency, law enforcement, utility, trail, natural terrain, and motorized recreational vehicles (over 1,500 pounds) capable of travel on natural terrain, such as four wheelers, etc.

Legends:
- System Forest Road
- Min. Maint. Forest Road
- ATV / OHM Trail
- Hunter Walking Trail
- Access Route
- Frozen Access Route
- Proactive Closure
- Non-designated Routes
- Snowmobile Trail
- Access Route
- Highway
- Shomes & Ditches
- Populated Routes

Area with Limitations:
- State Forest Land in Areas with Limitations
- State Park Land
- State Wildlife Land
- State Forest Land
- State Forest Land in Areas with Limitations
- County Tax-forfeited Land
- Red Lake Band Land
- Township Lines
- Section Lines
