NOTICE OF SUBMISSION OF RULES PROPOSED FOR ADOPTION WITHOUT A PUBLIC HEARING TO THE OFFICE OF ADMINISTRATIVE HEARINGS

Amendments to Rules Relating to Mississippi River Corridor Critical Area, Minnesota Rules, part 6106.0050, subpart 64; Revisor's File No. R-04575

TO: ALL INTERESTED PERSONS

In accordance with Minnesota Statutes, section 14.388, subdivision 2, this notice is being sent to all persons who have registered their name with the department under Minnesota Statutes, section 14.14, subdivision 1a. This notice is also posted on the website of the Minnesota Department of Natural Resources.

PLEASE TAKE NOTICE: that the above-cited rules proposed for adoption will be submitted to the Office of Administrative Hearings on the date of this notice, November 27, 2018. A copy of the rule modification is attached to this notice.

All interested persons have five business days after the date of this notice to submit comments to the Office of Administrative Hearings via its [eComments website](https://minnesotaoah.granicusideas.com/discussions) at <https://minnesotaoah.granicusideas.com/discussions> or 600 North Robert Street, P.O. Box 64620, Saint Paul, Minnesota 55164-0620.

The department is using the good cause exemption process under Minnesota Statutes, section 14.388, subd. 1, clause (4), to make changes that do not alter the sense, meaning, or effect of the rule.

This rulemaking makes a technical change to update the definition of "River Corridor Boundary" in Minnesota Rules, part 6106.0050, subpart 64, for the Mississippi River Corridor Critical Area rule that took effect on 4 January 2017. The DNR recently identified minor technical errors in the original legal description created by Executive Order 79-19 and published in the State Register on 3/12/1979 (Volume 3, pages 1681 – 1691). The DNR published a complete corrected legal description in the 11/05/2018 State Register (43 SR 508). The sole purpose of this rulemaking is to update the rule to reference the corrected November 2018 legal description publication instead of the incorrect 1979 publication.
