## **SALE OF NON-FERROUS METALLIC MINERALS LEASES**

**June 9, 2017**

**Beltrami, Itasca, Koochiching,  
Lake of the Woods, and St. Louis Counties**

**List of lands and minerals, including trust fund lands, lands and minerals forfeited for nonpayment of taxes, and lands and minerals otherwise acquired, divided into mining units as designated by the Commissioner in accordance with Minnesota Statutes section 93.25; and Minnesota Rules, parts 6125.0100-.0700**

**Division of Lands and Minerals  
500 Lafayette Road  
St. Paul, MN 55155-4045  
(651) 259-5959**

**STATE OF MINNESOTA  
DEPARTMENT OF NATURAL RESOURCES  
DIVISION OF LANDS AND MINERALS**

**MINING UNIT BOOK**

List of lands and minerals, including trust fund lands, lands and minerals forfeited for nonpayment of taxes, and lands and minerals otherwise acquired, divided into mining units as designated by the Commissioner in accordance with Minnesota Statutes, section 93.25, and Minnesota Rules, parts 6125.0100-.0700

**DEFINITIONS**

The terms and abbreviations used in the following list have the meanings indicated by the following legend:

The mining unit number is a county code of one or two letters-Section-Township-Range:

B-9-158-36	A mining unit number for Beltrami County.
I-1-61-22	A mining unit number for Itasca County.
K-1-63-23	A mining unit number for Koochiching County.
LW-1-158-35	A mining unit number for Lake of the Woods County.
SL-1-58-14	A mining unit number for St. Louis County.
N	North
S	South
E	East
W	West
N1/2	North one-half of the section, and the like for the other half sections
NW1/4	Northwest one-quarter of the section, and the like for the other quarter sections
N1/2-SE1/4	North one-half of the Southeast one-quarter of the section, and the like for other half-quarter sections
NW1/4-SE1/4	Northwest one-quarter of the Southeast one-quarter of the section, and the like for other quarter-quarter sections
LOT01 (SE1/4-SE1/4)	Government Lot 1 (The description in parentheses is included only for assistance in map reference.)
SEC.	Government section
TWP.	Government township, north

RNG.	Government range, west of Fourth or Fifth Principal Meridian. Except in Cook County, Townships 43 through 71, when listed herein, are west of Fourth Principal Meridian. Townships 130 through 163, when listed herein, are west of Fifth Principal Meridian. For Cook County, the Ranges are identified as being East or West, with those lands being either east or west of the Fourth Principal Meridian.
Acres	The acreage according to the following sources: Government measure; government survey plats or, in the case of certain tax forfeited lands, county records.
(PCF)	Power Company Flowage. Part or all of the description so designated may be subject to flowage rights.

A copy of the rules governing the issuance of leases covering metallic minerals (Minnesota Rules, parts 6125 0100 .0700) is available from the Division of Lands and Minerals. These Rules may also be found on the Minnesota State Legislature website at [www.leg.state.mn.us](http://www.leg.state.mn.us).

This material is available in an alternative format upon request. TTY: 1-800-657-3929

### **LAND CLASSIFICATIONS**

The column headed "Land Class" identifies the means by which the lands and mineral rights were acquired by the state.

Minnesota Statutes, section 93.22, subd. 1(b) provides that 20% of all payments made under the state mineral leases shall be credited to the minerals management account for the administration and management of state mineral resources by the commissioner of natural resources. The remainder of the payments shall be credited as described below under each land classification.

These classifications, and the funds that are to be credited with the income from the minerals, are as follows:

CCA	Consolidated Conservation Areas Lands that were acquired as the result of tax forfeitures and legislative action, and that the state holds free from the trust in favor of the taxing districts. Income from these minerals is credited as provided by Minn. Stat. sec. 93.22, subd. 1(c)(4).
DOT	Lands acquired by the Department of Transportation. Income from these minerals is deposited into the trunk highway fund as provided by Minn. Stat. sec. 161.433, subd. 2.
ESCHEAT	Lands escheated to the state due to the absence of any legal heir. Income from these minerals is credited to the general fund.
FOREST	Lands acquired and managed by the Division of Forestry, Department of Natural Resources, for state forest purposes. Income from these minerals is credited as provided by Minn. Stat. sec. 89.035.
FORF MINS	Forfeited Severed Minerals. Severed mineral interests that have forfeited to the state through court proceedings for failure to comply with the severed mineral interests registration laws. Income from these minerals is credited as provided by Minn. Stat. sec. 93.22(c)(3), pursuant to authority to lease provided in Minn. Stat. sec. 93.55, subd. 3.

GAME/FISH	Game and Fish Fund Lands acquired by purchase for game and fish purposes and managed by the Divisions of Fish and Wildlife, Department of Natural Resources. Income from these minerals is credited as provided by Minn. Stat. sec. 97A.055, subd. 2.
GEN GIFT	Lands and mineral rights granted to the state through gift with no specific fund designated for distribution of any income. Income from these minerals is credited to the general fund.
GENERAL	General Fund. Tax forfeited lands acquired free from the trust in favor of taxing districts pursuant to resolution of a county board. Income from these minerals is credited as provided by Minn. Stat. sec. 282.01, subd. 2.
LUP	Land Utilization Project Lands purchased by the United States Government from private individuals and subsequently deeded to the State of Minnesota. In deeding LUP Lands to the state, the U. S. reserved an undivided three-fourths interest in all minerals not of record in third parties, and also reserved the remaining one-fourth interest in all fissionable materials located in these acquired lands. Income from these minerals is credited as provided by Minn. Stat. sec. 89.035.
NREG MINS	Nonregistered Severed Minerals. Severed mineral interests where the owner has failed to file a verified statement required by Minn. Stat. sec. 93.52 before the dates specified in Minn. Stat. sec. 93.55, subd. 1. A lessee holding a lease covering these nonregistered severed minerals may not mine the nonregistered severed minerals until a court has adjudged the forfeiture of the mineral interest to be absolute. Income from these minerals is credited as provided by Minn. Stat. sec 93.22(c)(3), pursuant to authority to lease provided in Minn. Stat. sec 93.55, subd. 3.
R CREDIT	Lands acquired by the state through mortgage foreclosure proceedings under the Rural Credit laws. Minerals and mineral rights were reserved when the Minnesota Department of Rural Credit subsequently sold such acquired lands. These minerals are managed by the Department of Natural Resources. Income from these minerals is credited to the general fund.
SCHOOL	School, swamp and indemnity school lands that were granted to the state from the federal government, or acquired through exchange involving trust fund lands, or acquired as a result of litigation involving trust fund lands. Income from these minerals is deposited into the Permanent School Fund as provided by Minn. Const. Art. XI, Sec. 8.
TAX LANDS	Tax Forfeited Lands. Lands forfeited to the state for nonpayment of general real estate taxes. Income from these minerals is credited as provided by Minn. Stat. sec. 93.22(c)(3).
TAX MINS	Tax Forfeited Minerals. Severed mineral interests that have forfeited to the state for nonpayment of severed mineral interests taxes. Income from these minerals is credited as provided by Minn. Stat. secs. 272.04, subd. 1 and 93.22(c)(3).
UNIV	University lands that were patented to the state from the federal government or acquired through an exchange involving such lands.

Income from these minerals is deposited into the Permanent University Fund as provided by Territorial Laws of 1851, Ch. 3, Sec. 2; and Minn. Stat. sec. 137.022.

VOLSTEAD

Volstead Lands. Federal Public Domain Lands that had been subject to Volstead liens for drainage projects and that have subsequently been purchased by the State of Minnesota. Income from these minerals is credited as provided by Laws of MN 1961, Chapter 472; Laws of MN 1963, Chapter 390 and Minn. Stat. sec. 89.035.

**STATE'S OWNERSHIP OF MINERAL RIGHTS**  
**OFFERED FOR LEASING**  
**WARRANTY OF TITLE**

Depending on the land classification, the state offers mineral rights for leasing with or without warranty of title.

**THE STATE OF MINNESOTA DOES NOT GUARANTEE TO OWN THE MINERAL RIGHTS IN SEVERAL CLASSES OF LANDS OFFERED, AND CANNOT ASSUME THE RESPONSIBILITY OF DETERMINING THEIR OWNERSHIP.**

However, the Division of Lands and Minerals has an active title examination program that examines official land records to determine whether the state owns the mineral rights. The Division also has worked on conflicts between mineral rights to be offered for leasing and those claimed by private mineral rights owners. If the Division determines through its title examination process that another party owns the mineral rights, those tracts are not offered for leasing.

**The state's warranty of title to mineral rights being offered is as follows:**

The state represents it owns the minerals in school, university and Volstead lands, unless the lands were acquired by exchange or by settlement of a court action. If these land were acquired by exchange, there is an asterisk (\*) in the Land Class column. If these lands were acquired through settlement of a court action, there is an "at" symbol ("@")) in the Land Class column. The state does not guarantee to own the minerals in school, university and Volstead lands acquired through exchange or settlement of a court action.

The state does not guarantee to own the minerals in all other state-owned lands and minerals.

The state's title to any tract of severed mineral interests forfeited for failure to comply with the severed mineral interests registration law is based upon a court judgment that the severed mineral interests have forfeited to the state absolutely under Minn. Stat. sec. 93.55.

The tax forfeited lands listed in this unit book conform to information obtained from the counties earlier this year. Such information indicated only the forfeiture status of the surface of the lands, not the forfeiture status of the minerals.

The state does not guarantee to own tax forfeited minerals, but these interests were included in this unit book only after reviewing the title to these interests. Nonregistered severed minerals were also only included in this unit book after reviewing title to those interests.

In the event it should develop that the state does not own the minerals in any particular land area listed herein, it must be understood that the state will not be held liable for any loss suffered by any lessee.

In the event that the State of Minnesota does not own the minerals in any part of the area included in a mining unit, the commissioner is empowered to revise any lease issued pursuant to such unit to conform with the actual area in the leased mining unit that is owned by the state, in accordance with the terms of Minn. Rules, parts 6125.0100 .0700 and the mining lease issued thereunder.

### USE OF SURFACE

In the column headed "Surface Offered," the nature of the state's interest in the surface ownership is indicated as follows:

Yes	Surface owned by state and included in the mining unit.
No	Surface is not included with the mineral rights. It is possible that the state owns the surface through an acquisition different from the mineral rights acquisition.

For lands that have forfeited to the state for nonpayment of taxes, the county in which those lands are located normally administers the surface of such lands. When a state mining lease includes the surface of tax forfeited lands, the county will administer the timber on the land and certain surface activities.

Certain mining units listed herein may contain commercial deposits of peat, and are subject to lease by the state pursuant to Minn. Rules, part 6125.0700, paragraph 5.

If the surface is not included with the mineral rights, the lessee is required to provide written notice to the owner or administrator of the surface estate. The notice must be provided at least 20 days in advance of any activities that will require the use of the surface estate. The notice must describe the proposed activities in sufficient detail so that the owner or administrator of the surface estate may evaluate the extent of the use of the surface estate.

### EXPLORATION PLAN REVIEW

At least 20 days in advance of conducting exploration on leased lands, an exploration plan must be submitted for the commissioner's review. The plan must specify location of proposed activities, a description of the proposed activities, the approximate dates for the proposed activities, mitigation methods for exploration activities at sites with special features or uses, the location and method of access to the exploration site, and, if needed, a site closure and stabilization plan.

As part of the review of the exploration plan, the commissioner will identify special features or uses within the leased premises. The mining unit book lists known special features or uses that are located within the government section in which the lands are being offered. The special features or uses identified in the mining unit book may only be in the section and not actually located on the lands to be leased. Special features or uses include: wildlife management areas, peatland watershed areas, the Black Bay Management Area, areas inventoried for potential federal wilderness, natural heritage features, designated trout streams, state canoe and boating routes, wild and scenic recreational rivers, the Taconite Trail, the North Shore Trail, the Arrowhead Trail, the Willard Munger Trail, historic/archaeological sites, wildlife management sites, fisheries management sites, rights of way, fire towers, campgrounds, public access sites, state highway rest areas or other encumbrances.

Peatland watersheds were identified from the 1984 Minnesota Department of Natural Resources report entitled *Recommendations for the Protection of Ecologically Significant Peatlands in Minnesota*.

Most of the game and fish fund lands were acquired or developed through the use of federal aid. Additional time for review by federal aid staff of proposed activities may be required before exploration or development can take place on these lands. The commissioner may require the lessee to adjust the exploration plans due to special features or uses within the leased premises or due to other management concerns. Unless notified to

the contrary by the commissioner within 20 days after the commissioner receives the exploration plan, the lessee may proceed with its exploration.

### **OLD GROWTH FORESTS**

Certain mining units listed herein may include the exception of old growth stands (except designated old growth). This exception will affect the type of exploration and mining activities that the lessee may conduct beneath and adjacent to the old growth.

Old growth stands are protected from planned disturbance. Activities prohibited include harvest and forest development work and new road or trail development. Access through stands is restricted. A special management zone also exists for a minimum of 330 feet around each old growth stand.

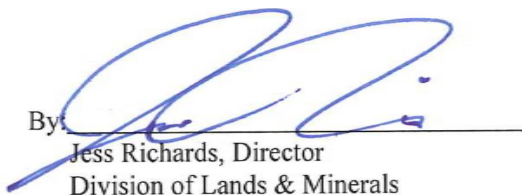

While designated old growth stands are excepted from the mining unit description, no reduction has been made in the surface acreage for the excepted old growth stand. Exploration and mining of the minerals beneath a designated old growth stand may be possible provided that the activities do not impact the old growth stand. The commissioner may require the lessee to adjust exploration plans due to proximity to a designated old growth stand or within the special management zone of an old growth stand.

### **WATERS**

There are no land or water areas within the Boundary Waters Canoe Area Wilderness or Voyageurs National Park included in this unit book.

No meandered waters are included in any mining unit. All of the nonmeandered lakes and wetlands that have been designated by the Commissioner of Natural Resources as protected waters or wetlands have been excluded by specific reference. The number included in the parentheses following the name of the lake or wetland aids identification of the waters on the official protected waters and wetlands inventory maps. Certain flowed areas of established water reservoirs are also excluded by specific reference in the mining units and some mining units are offered subject to flowage rights. No reduction has been made in the acreage for excluded nonmeandered water areas since these water areas have not generally been determined by registered surveys.

Tom Landwehr  
Commissioner of Natural Resources

By   
Jess Richards, Director  
Division of Lands & Minerals
