

The

TAMARACK  
DISCOVERY

A Nickel, Copper, and  
Platinum Project

First drilled in 1984 by the MGS. Followed up in 1999  
by Kennecott Exploration who discovered significant  
mineralization by 2008. In June 2014 Talon Metals  
Corporation entered into an  
exploration and option agreement  
with Kennecott.

Exploration Leases

Active state nonferrous metallic mineral leases  
See company label codes below for map labels.

Company labeled codes  
HTX - HTX Minerals    K - Kennecott Exploration Co.

Terminated state nonferrous metallic mineral leases  
(1967-January 2017)

Private mineral leases are not shown.

Exploration Drilling by Kennecott (as of January 2017)

Kennecott exploration drilling compiled by DNR

1-10 drill holes

11-20 drill holes

20-30 drill holes

30-40 drill holes

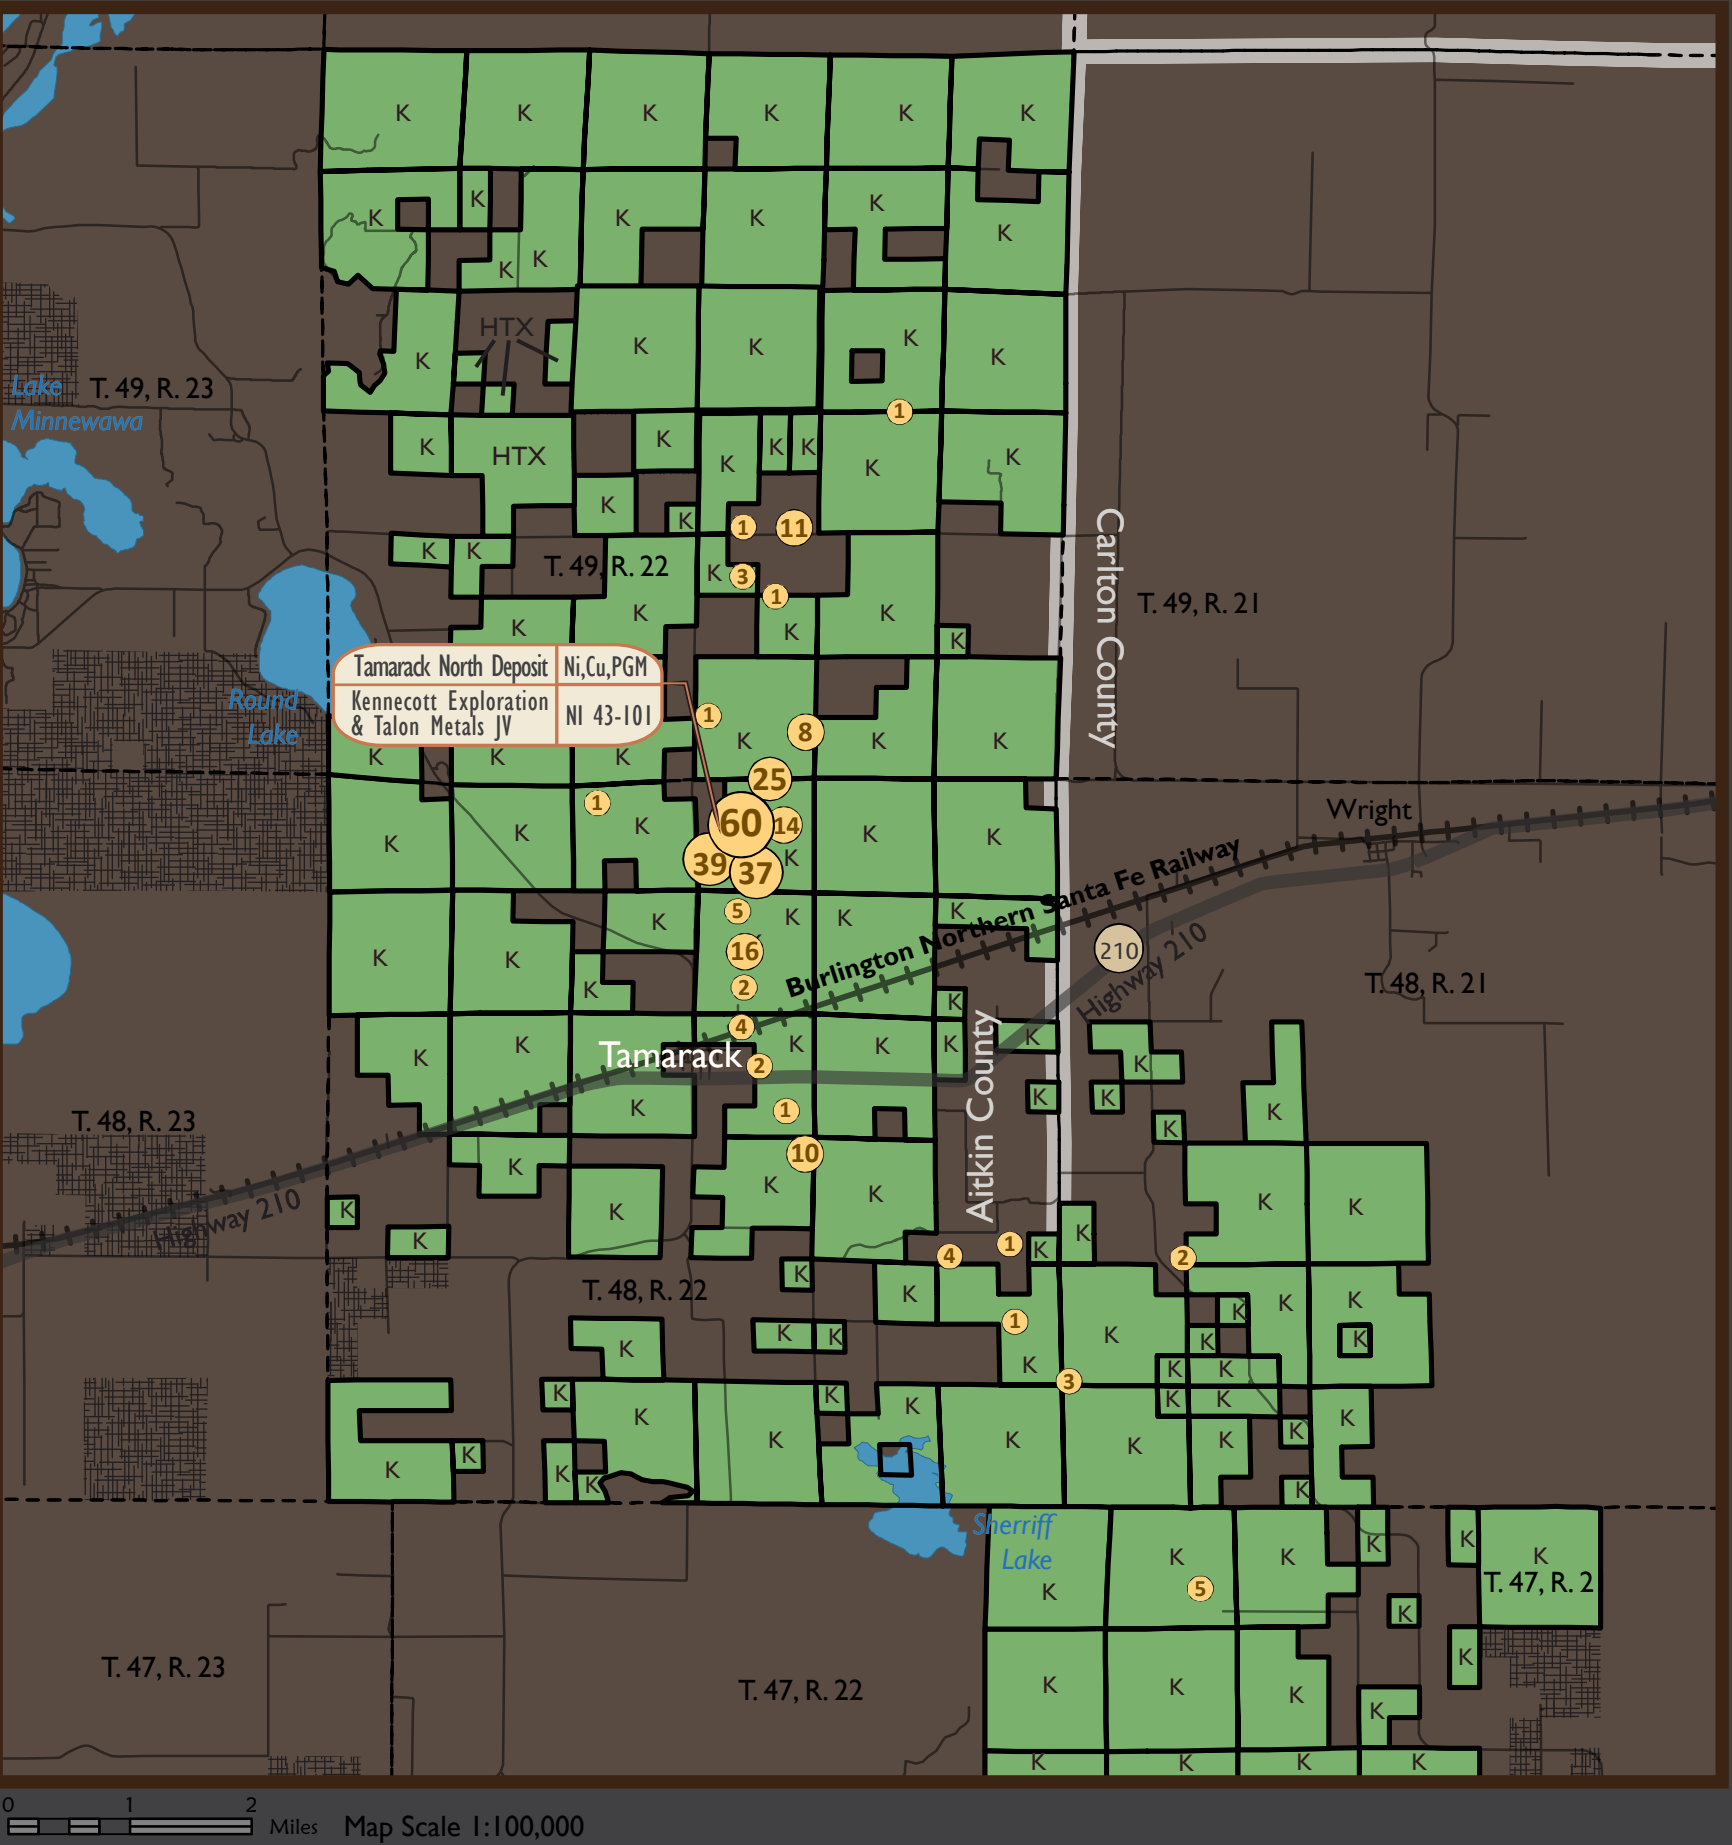

40-60 drill holes

Cluster analysis applied by DNR to generalize the exploration drill hole locations due to this small scale map representation.
