MINNESOTA RIVER STATE WATER TRAIL

MAP 3 - GRANITE FALLS TO MORTON INCLUDES THE REDWOOD RIVER

m MINNESOTA
STATE PARKS AND TRAILS

ABOUT THE WATER TRAIL

This stretch is one of the best stretches of the Minnesota River to experience with a number of challenging sections, including the Class II-IV rapids at Minnesota Falls and Class I rapids both upstream and downstream of the Vicksburg County Park area.

From Granite Falls to North Redwood the Minnesota flows through an area of Gneiss outcrops. Some outcrops are the oldest rocks discovered in North America, dating back more than three billion years. The banks along this stretch of river are heavily forested with maple, elm, cottonwood and willow.

At the area around Redwood Falls, paddlers will encounter thick forest and high ridges that tower above the Minnesota River. Bordering the river is the recently created Whispering Ridge Aquatic Management Area, part of the effort of the Green Corridor Project to provide a trail system from Skalbekken County Park to Fort Ridgely State Park. You will also find a rock ledge that was once dynamited to allow steamboats upstream.

Pockets of rapids can be found along this stretch.

TRIP PLANNING AND SAFETY

- Plan your trip with a map before you leave. Tell someone your plans, including put-in and take-out times.
- Travel with a companion or group.
- Most people paddle 2-3 river miles per hour.
- River levels can affect your speed and trip safety. Check conditions at mndnr.gov/river_levels.
- Don't underestimate the power of wind and waves, especially on large lakes.
- Be cautious of obstacles in the river and avoid overhanging and dead trees.
- Bring clean drinking water and a waterproof container with a first aid kit, waterproof matches and extra clothes.
- Wear a life jacket at all times while on the water.
- Purchase a license for your non-motorized watercraft if it's more than 10 feet in length. If you're not from Minnesota, check your state's watercraft license laws.

WATERCRAFT CAMPING

- Camp only in designated campsites, which are often available on a first-come, first-served basis.
- Riverbed camping next to private property is not permitted.
- Stay off private property. Stop only at designated sites; much of the shoreland is private property.
- Be sanitary! Use designated toilet facilities or bury human waste away from the river.
- Follow the rules for firewood. State forests allow you to gather dead wood for a fire, but state parks do not.

AREA OVERVIEW

RECOMMENDED DAY TRIP

Kinney Access to Skalbekken County Park

- Put-in location: River mile **233.8**
- Take-out location: River mile **224.6**
- Length: **9.2** river miles

This is a great stretch of river for beginners! The paddle from Kinney Landing to Skalbekken County Park has no rapids to speak of.

The river twists and turns for the first few miles before straightening out and offering a mixture of forested and open areas. Skalbekken County Park offers overnight camping.

EXPLORE ON SHORE

Skalbekken County Park River mile **224.5**

Park amenities include shelters, restrooms, water, picnic areas and rustic camping area.

Vicksburg County Park River mile **210**

This lovely park offers a concrete boat ramp that makes it easy to get in and out of the water. This is one of the more popular sections of the Minnesota River for both paddling and fishing.

PROTECT THE RIVER

Your experience on the river depends on a healthy environment. As you explore the beauty of this waterway, also do your best to protect it.

Protect Your Waters

- Before launching...before leaving
- Clean off aquatic plants and animals.
 - Drain all water away from the landing.
 - Dispose of unwanted bait in the trash.

mndnr.gov/invasives/aquatic

Buffer Protection

The Minnesota buffer law establishes new vegetation buffers along rivers, streams and ditches to help filter out chemicals and sediment before they reach waterways.
