ABOUT THE PARK

Sparked by the support of local citizens, the park has protected the area's rolling glacial hills, beautiful lakes, and diverse wildlife since 1919. Over the years, the park has expanded to include high quality maple-basswood forests, prairies, wetlands and oak savanna. Roads, trails and facilities were developed by a Veteran's Conservation Corps (VCC) crew during the New Deal era. The crew worked here under the direction of the National Park Service from 1935 to 1938. These workers left behind a legacy that you can still experience when you visit the park today. Their project also set the stage for continuing growth and improvement.

Swim, fish or picnic along Lake Andrew.

TRAIL HIGHLIGHTS

Pondview Trail	0.7-mile loop
Mostly flat • Gravel • Mowed grass This gentle terrain circles a pond, prairie and oak savanna. Read interpretive signs as you go.	
Parker-Fremberg Trail	2-mile loop
Some hills • Mowed grass Hike wooded hills that were part of early settlers' farms. See bounding deer or migrating birds.	
Mt. Tom Trail (Hiking Club Trail)	3.3 mile loop
Steep terrain • Gravel • Wooden waterbars This visitor favorite offers mature oak trees, native prairie remnants, and the best scenic overlooks in the park (and perhaps the county). Expect to do some strenuous hiking to get there, as you will hike up and down nearly 200 feet in elevation.	
Bicycle Trail	2 miles one-way
Some hills • Paved • Shared with bicyclists and hikers Travel from the interpretive center to Lake Andrew, then follow the shore to Shakopee Creek. You will pass Lakeview Campground, the Beach Store, the picnic grounds, and the boat launch.	

MORE TO EXPLORE AT THE PARK

- Enjoy naturalist programs year-round.
