

**Authorization Form for Watercraft Owners to
Transport Watercraft with Prohibited Invasive Species
From Designated Infested Waters for Cleaning / Storage
(Authorization under Minnesota Statutes, section 84D.05.1(5),
and Minnesota Rules 6216.0265, subp. 1)**

This form specifies the procedures that must be followed for watercraft owners to transport prohibited invasive species attached to their watercraft via a public road for winter storage and zebra mussel or other prohibited invasive species disposal purposes. This form must be completed in full and signed by the watercraft owner, and be in possession of the person while transporting watercraft that have attached zebra mussels or other prohibited invasive species from infested waters for winter storage. The zebra mussels/other prohibited invasive species may be transported on public roads from the listed water access site to the listed cleaning site only if the person:

- transports the watercraft directly from a water access to the cleaning location;
- cleans all the zebra mussels / prohibited invasive species from the watercraft before transporting the watercraft again;
- dries any zebra mussels or other prohibited invasive species removed from the watercraft for 5 days prior to transporting to a disposal location at least 300 feet from riparian areas, ditches, or seasonally flooded lands or placing them in the trash; and
- transports the watercraft as a non-commercial boat storage or transport activity.

Instructions: Complete all of the following information for each day of transportation. Sign the form to make it effective, and carry the form with you while transporting the material for disposal.

Watercraft owner's name: _____

Watercraft license number: _____

Transportation date: _____

Water access name / location where watercraft will be taken out: _____

Cleaning address: _____

I have read and agree to follow the above transportation conditions.

Signature of the Watercraft Owner
