Wildlife Manager Report

Deer Permit Area (DPA) 110 is a heavily forested area with good public access throughout the DPA. Habitat is interspersed by coniferous forest with hardwood and aspen. The DPA is dotted with agricultural and hay fields and also has substantial acres of bogs. This combination of habitats provides moderate quality deer habitat. This DPA has historically had a relatively slow population growth rate. The recent goal from 2019 for DPA 110 was to increase deer densities by 25%. Even with four years of Lottery seasons, we are not seeing population recovery so antlerless permit numbers have been reduced to 250 for this year's season.
