Wildlife Manager Report

Deer permit area 118 lies along the Canadian border within the Superior National Forest and is predominately public land on the northwestern edge of moose range. Approximately 50% lies within the Boundary Waters Canoe Area wilderness. It is a heavily forested permit area which is subject to deep snow and long, cold winters. Winter severity is the biggest factor affecting survival. Implementation of a Bucks only management strategy will continue in 2022 to move the population towards goal while taking moose into consideration.
