## Wildlife Manager Report

Deer Permit Area (DPA) 132 lies partially within the Superior National Forest and is predominately public land outside the primary moose range. It is a heavily forested permit area which is subject to deep snow and long, cold winters. Winter severity is the biggest factor affecting deer survival. The local deer herd is currently well below the population goal. Implementation of a Bucks only management strategy will continue in 2022 to move the population towards goal.
