Wildlife Manager Report

Deer Permit Area (DPA) 341 is located on the northern end of the driftless area, a region of bluffs and valleys that makes up some of the state's best deer habitat. Most of DPA 341 is privately owned, however there is some public land available for hunting including State Wildlife Management Areas and State Forest Lands, particularly on the north end of the permit area. DPA 341 is designated as a three-deer limit with an early antlerless season, which should continue to help stabilize the deer population. Please visit the MN DNR Recreation Compass for more details.
