The Pine County Soil & Water Conservation District is pleased to invite you to a one-day workshop on Thursday, October 14, to introduce you to the Pine County Geologic Atlas Part B, which was recently completed for the county by DNR-Waters. Part B of the atlas depicts ground water systems and pollution sensitivity of the county. Part A, geology including sinkholes, was published in 2001 by the MN Geological Survey.

Staff from the MN DNR-Waters, the University of Minnesota, the Minnesota Geological Survey, and Pine County Zoning will provide training on the many possible uses of the Geologic Atlas. We would like to invite you to the Askov Community Center for an informative workshop from 8:30 to noon. Lunch will be provided. Following lunch, there will be a field trip from 12:30 to 4:30. The fee for this workshop is $5.00 per person. Registration is required. See reverse side for more information.

CEU’s pending for well contractors. The program is designed to meet the criteria for continuing education for Professional Geologists as specified by the MN Board of AELS/GID.
The day’s program is designed to help you get familiar with Pine County’s ground water resources and how you can use the atlas information to protect those precious resources now and into the future. Copies of both Part A and B of the Pine County Geologic Atlas will be available that day.

The workshop will be held at the Askov Community Center in Askov, MN. Lunch is provided. There is a $5.00 fee for this workshop to help cover the cost of lunch and the bus for the field trip. Registration is required, so please fill out the enclosed form and return it and your payment to:

Pine SWCD  
Attn: Jill  
PO Box 276  
Hinckley, MN 55037

Registration deadline is September 30th.

Registration Form

Please list the names of people that will be attending the workshop.
