

Pequot Lakes

SECTION 25.065 Docks

A. Definition: "Dock" means a narrow platform whether seasonal or permanent extending waterward from the shoreline intended for ingress and egress for moored watercraft or to provide access to deeper water for swimming, fishing or other water-oriented recreational activities. Elements considered part of a dock are storage lockers less than three feet in height measured from the platform of the dock and benches. Elements not pertinent to a dock that are prohibited include walls, railings or fences attached to the dock.

B. Dock Length

"Dock Length" shall be measured from the Ordinary High Water Mark on a line parallel to the property sidelines as extended into the lake.

C. Docks Requiring a Conditional Use Permit

Dock permits may be required from the Minnesota Department of Natural Resources, the Corps of Engineers or other entities with jurisdiction.

a. Docks over seventy-five (75) feet in length in wetlands located below the ordinary high water mark except seasonal docks in existence and used within the preceding twelve months prior to the effective date of this Ordinance.

b. Docks within ten (10) feet of a line parallel to the property sidelines.

c. Docks which provide more than two slips and serve more than one property.
