1.16 **6234.2105 TAKING WOLF.**

1.17 Subpart 1. **Licenses.** Three types of licenses are offered for taking wolves according  
1.18 to items A to C. Licenses are valid in any open wolf zone.

1.19 A. The early season wolf hunting license is valid only for hunting in the early  
1.20 season.

1.21 B. The late season wolf hunting license is valid only for hunting in the late  
1.22 season.

1.23 C. The late season wolf trapping license is valid only for trapping in the late  
1.24 season.

2.1 Subp. 2. **Early season.** During the early season, wolves may be taken according to  
2.2 items A to C.

2.3 A. Wolves may be taken for a 16-day period beginning the Saturday nearest  
2.4 November 6 in 100 series deer permit areas unless otherwise closed by the commissioner  
2.5 and except as provided in item C.

2.6 B. Wolves may be taken for a nine-day period beginning the Saturday nearest  
2.7 November 6 in 200 series deer permit areas unless otherwise closed by the commissioner  
2.8 and except as provided in item C.

2.9 C. Notwithstanding items A and B, wolves may be taken in the East-Central  
2.10 Zone only for a two-day period beginning the Saturday nearest November 6. At the close  
2.11 of legal shooting hours on the second day, the zone is closed.

2.12 Subp. 3. **Late season.** Wolves may be taken in any open wolf zone from the Saturday  
2.13 following Thanksgiving to January 31, unless otherwise closed by the commissioner.

2.14 Subp. 4. **Application procedures for wolf license.**

2.15 A. A person may not apply for more than one type of wolf license, whether as  
2.16 an individual or as a member of a group.

2.17 B. If the number of valid applications exceeds the number of available licenses,  
2.18 the commissioner shall conduct a drawing to determine those eligible to purchase a wolf  
2.19 hunting or trapping license.

2.20 C. The application deadline is the Thursday following Labor Day. Applications  
2.21 may be made to an electronic licensing system agent, by telephone or Internet, or at the  
2.22 Department of Natural Resources License Center.

2.23 D. A person may apply individually or as part of a group totaling no more  
2.24 than four persons. Those who wish to apply as a group must submit their applications at  
2.25 the same time. All applications in a group must be for the same license type. Either all

3.1 members of the group or none shall be drawn. An improperly completed application shall  
3.2 be rejected but does not disqualify other members of the group.

3.3 E. The commissioner shall notify successful applicants with instructions  
3.4 authorizing them to obtain a license. The commissioner shall disqualify a successful  
3.5 applicant who does not purchase a license according to the instructions or who does not  
3.6 provide all of the requested information.

3.7 F. A person selected through the wolf license drawing must purchase the license  
3.8 no later than October 24 if selected for the early season or November 14 if selected for late  
3.9 season hunting or late season trapping. Any licenses not purchased by the deadline shall  
3.10 be issued according to item G.

3.11 G. Wolf licenses that are not purchased by the deadlines described in item F  
3.12 shall be offered for sale as follows:

3.13 (1) unsuccessful wolf license applicants may purchase unsold wolf licenses  
3.14 on a first-come, first-served basis beginning at 12:00 p.m. on October 29 for the early  
3.15 season and beginning at 12:00 p.m. on November 19 for late season hunting and late season  
3.16 trapping. An eligible person must apply individually and in person at an ELS-POS (point of  
3.17 sale) agent location or through the ELS-Internet system to obtain a remaining license; and

3.18 (2) any remaining available licenses not purchased by unsuccessful  
3.19 applicants may then be sold to any eligible person on a first-come, first-served basis  
3.20 beginning at 12:00 p.m. on November 5 for the early season and beginning at 12:00  
3.21 p.m. on November 26 for late season hunting and late season trapping. An individual  
3.22 may purchase one wolf license annually.

3.23 H. All applicants must furnish proof of a current or previous year hunting  
3.24 license as required by Minnesota Statutes, section 97B.647, subdivision 6, and as specified  
3.25 in the application instructions.

4.1 Subp. 5. **Season closure; status notification.** Except in the East-Central Zone,  
4.2 where the early season ends at the end of legal shooting hours on November 9, the wolf  
4.3 season ends as follows:

4.4 A. When each wolf zone target harvest is reached or projected to be reached  
4.5 based on harvest trends, the commissioner shall close the season for that zone.

4.6 B. A season closes at the end of legal shooting or trap tending hours for the day  
4.7 that the closure is declared under item A.

4.8 C. The commissioner shall make harvest and season status available via a  
4.9 toll-free telephone number and on the department Web site. The status notification must  
4.10 indicate the tally for the number of wolves taken during the season and zone and whether  
4.11 the season is open or closed in each wolf zone.

4.12 Subp. 6. **Wolf harvest registration.** A person tagging a wolf must register the wolf  
4.13 at a designated wolf harvest registration station or with an agent of the commissioner and  
4.14 obtain a wolf harvest registration confirmation number or must connect to the online or  
4.15 telephone department harvest registration system and follow the instructions to obtain  
4.16 a wolf harvest registration confirmation number. A person must obtain a wolf harvest  
4.17 registration confirmation number before the wolf is skinned and no later than 10:00 p.m.  
4.18 the day of the harvest.

4.19 Subp. 7. **Tagging and license validation for wolves.**

4.20 A. A person taking a wolf must affix to the carcass the site tag provided with  
4.21 the person's wolf hunting or trapping license.

4.22 B. The tag must be fastened through an ear or around a leg bone or tendon so  
4.23 that the tag cannot be readily removed. A hunter or trapper may not possess or use the site  
4.24 tag of another licensee.

5.1 C. At the time a wolf is tagged at the site of kill, the license of the person whose  
5.2 tag is affixed to the wolf must be validated. Validation consists of using a knife or similar  
5.3 sharp object to cut out or a pen to indelibly mark the appropriate notches on the site tag  
5.4 indicating the date of kill and the wolf zone where the wolf was taken.

5.5 Subp. 8. **Wolf zone target harvests.** The target harvest established for the 2014  
5.6 wolf seasons is as follows:

5.7 A. In the Northwest Wolf Zone, the target harvest is 165, divided as follows:

5.8 (1) the early season target harvest is 83 wolves; and

5.9 (2) the late season target harvest is 165, less the number of wolves taken  
5.10 during the early season.

5.11 B. In the Northeast Wolf Zone, the target harvest is 73 wolves, divided as follows:

5.12 (1) the early season target harvest is 37 wolves; and

5.13 (2) the late season target harvest is 73, less the number of wolves taken  
5.14 during the early season.

5.15 C. In the East-Central Wolf Zone, the target harvest is 12 wolves, divided  
5.16 as follows:

5.17 (1) there is no target harvest for the early season; and

5.18 (2) the late season target harvest is 12, less the number of wolves taken  
5.19 during the early season.

5.20 Subp. 9. **Target harvest adjustments.** The commissioner may reduce target harvest  
5.21 numbers for the Northeast and East-Central Wolf Zones before the beginning of the early  
5.22 season to accommodate tribal declarations for wolf harvest in the 1837 Ceded Territory  
5.23 and the 1854 Ceded Territory.

5.24 Subp. 10. **License availability.**

6.1 A. The number of available licenses for the 2014 wolf seasons is 3,800, divided  
6.2 as follows:

6.3 (1) early season: 2,300 licenses; and

6.4 (2) late season: 1,500, with a minimum of 375 licenses awarded by lottery  
6.5 to valid applicants for a wolf trapping license, or if less than 375 valid trapping license  
6.6 applications are received, then the number equal to the number of valid trapping license  
6.7 applications. If the number of applicants for trapping licenses exceeds 375, the number of  
6.8 trapping licenses to be issued may be adjusted proportionally upward based on the number  
6.9 of trapping applications versus the number of hunting applications.

6.10 B. No more than five percent of the early season hunting and late season hunting  
6.11 licenses shall be awarded to nonresidents.

6.12 C. The commissioner shall adjust the number of available licenses for the  
6.13 early or late season at the time the computerized drawing is conducted if the number of  
6.14 licenses available exceeds the number of applicants for either season. The total licenses  
6.15 shall not exceed 3,800.

6.16 D. In seasons with fewer applicants than available licenses, the remaining  
6.17 available licenses shall be offered on a first-come, first-served basis.

6.18 Subp. 11. **Wolf zones.**
