Introduction

The Laws of 2017, Chapter 93, Article 1, Section 3, Subdivision 8 (b), (c), and (d) provided the following operating adjustment totals by fund to the Department of Natural Resources (DNR) with instruction to distribute these amounts to our divisions accordingly. (See below for bill language.)

Agency Operating Adjustment by Fund

Fund	FY18	FY19
General Fund	\$2,204,000	\$3,895,000
Game and Fish Fund	\$2,676,000	\$5,042,000
Natural Resources Fund	\$1,591,000	\$3,220,000
Total	\$6,471,000	\$12,157,000

Background

These amounts reflected a 1) a two percent increase for known compensation growth from FY17, 2) a one percent increase in compensation related to anticipated contract increases, and 3) \$900,000 annually for known MN.IT increases. To distribute the operating adjustment, we used the following guiding principles:

- (1) Funds will be distributed where the cost increases will occur and
- (2) To the extent possible, the fund health of Natural Resource Fund and Game and Fish Fund accounts with low balances or projected deficits in the current budget horizon will not be worsened.

This report contains five appendices that outline how the operating adjustment was distributed and the resulting appropriations:

- Appendix A shows the breakdown of the operating adjustment by fund and division;
- Appendix B presents the operating adjustment by account;
- Appendix C shows the operating adjustment by division and account;
- Appendix D presents a summary of division budgets by fund before and after the operating adjustment; and
- Appendix E restates the appropriation article including the operating adjustment at both the division fund and rider level and resulting base-level appropriations for each program.
