

Environmental Permit Performance: Report for Fiscal Year 2025

90-Day and 150-Day Permit Decision Goals

Minnesota Department of Natural Resources
Office of Policy and Planning
500 Lafayette Road
St. Paul, MN 55155-4040
888-646-6367 or 651-296-6157
mndnr.gov

This report was prepared as required by Minnesota Statute (MS) 84.027, Subd. 14a.

As requested by Minnesota Statute 3.197: This report cost approximately \$2,500 to prepare, including staff time, printing, and mailing expenses.

The Minnesota Department of Natural Resources (DNR) prohibits discrimination in its programs and services based on race, color, creed, religion, national origin, sex, marital or familial status, disability, public assistance status, age, sexual orientation, and local human rights commission activity. Individuals with a disability who need a reasonable accommodation to access or participate in DNR programs and services, including those who would like to request this document in an alternative format, should contact the DNR ADA Title II Coordinator at info.dnr@state.mn.us or 651-296-6157. We welcome calls from Telecommunications Relay Service (TRS) users. For assistance in other languages, please call 651-296-6157 or 888-MINNDNR (646-6367). Discrimination inquiries should be sent to Minnesota DNR, 500 Lafayette Road, St. Paul, MN 55155-4049.

Background

The mission of the Minnesota Department of Natural Resources (DNR) is to work with Minnesotans to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to provide for commercial uses of natural resources in a way that creates a sustainable quality of life. The DNR uses a wide range of programs to fulfill this mission, including permitting programs established by the Minnesota Legislature. Many of these have been in place for decades, while others are more recent. It is important to review regulatory programs over time to ensure that they continue to address the needs of the state. The DNR is committed to maintaining a modern, efficient, and effective regulatory system.

This report meets the requirements of Minnesota Statute (MS) 84.027, Subd. 14a.

Scope of Report: Environmental and Natural Resource Permits

The DNR is reporting on the following natural resource permits:

- Aquatic plant management permits
- Invasive aquatic plant management permits
- Water appropriation permits
- Public waters work permits
- Endangered or threatened species taking permits
- Metallic mineral mining permits (ferrous and non-ferrous)
- Peat mining permits

These permits are relevant to the concerns underlying MS 84.027 Subd. 14a. This report does not include other DNR permit programs that focus mainly on recreational activities, such as hunting and fishing.

Summary Statistics for 90-Day and 150-Day Goal Attainment

The DNR's goal is to approve or deny permit applications within 90 days of receiving a complete Tier 1 permit application or within 150 days of receiving a complete Tier 2 permit application. Tier 1 permit applications include general permit authorizations for work in public waters, in addition to water appropriation and aquatic plant management permit renewals that do not require a site inspection. The remaining permit types fall into Tier 2 and are subject to the 150-day goal. The DNR manages many permit applications. DNR permitting activity for fiscal year 2025 included:

- 1,242 permit applications in progress on July 1, 2024
- 1,126 applications in progress after June 30, 2025
- 10,660 new applications received
- 9,960 applications approved or denied
- 816 applications withdrawn

DNR continues to do well in meeting the permitting goals. 95.7% of Tier 1 permits were approved or denied within 90 days of receiving a complete application and 93.6% of Tier 2 permits were approved or denied within 150 days of receiving a complete application. Low staffing levels contributed to several permit delays due to vacancies and workload capacity issues. Permits with complex technical issues can take significant staff time to resolve, which can reduce the total hours available to process other applications. Other delays resulted from incomplete or inaccurate permit applications, or the need for additional information, environmental review, or resolution of compliance or technical issues. In some cases, the permit application was submitted in advance of a particular season but were not processed until closer to that season's start or when seasonal conditions allowed certain requirements to be met.

Table 1 summarizes how well DNR met the 90-day goal for Tier 1 applications and Table 2 summarizes how well DNR met the 150-day goal for Tier 2 applications.

Table 1 Summary: Tier 1 Permits (90-day goal):

Of the 6,041 Tier 1 permit applications for which a decision was made in fiscal year 2025:

- 92.8% (5,606) were approved or denied within 90 days of receiving the initial application,
- 95.7% (5,779) were approved or denied within 90 days of receiving a complete application, and
- 4.3% (262) took longer than 90 days to approve or deny following a complete application.

Table 2 Summary: Tier 2 Permits (150-day goal):

Of the 3,919 Tier 2 permit applications for which a decision was made in fiscal year 2025:

- 89.3% (3,498) were approved or denied within 150 days of receiving an initial application,
- 93.6% (3,669) were approved or denied within 150 days of receiving a complete application, and
- 6.4% (250) took longer than 150 days to approve or deny following a complete application.

Table 3 details the causes of delay for the 262 Tier 1 permit decisions that took more than 90 days from a complete application for a DNR decision.

Table 4 details the causes of delay for the 250 Tier 2 permit decisions that took more than 150 days from a complete application¹ for a DNR decision. Note: Many aquatic plant management permit applications are routinely submitted well in advance of the permitting season, which can cause increased delays from application submission since required site inspections cannot occur until plant growth begins. This is a frequent cause of delay for aquatic plant management permits and is typically the reason they are marked “Other” in the reason for not meeting the goal.

¹ Table 4 includes mining permits where the decision took longer than 150 days from an initial application. All non-mining permits included in Table 4 are permits where the decision took longer than 150 days from a complete application.

Summary for Tier 1 Permits (90-day Goal)

Table 1: Summary statistics for Tier 1 permits where a decision was made in FY25 (7/1/2024-6/30/2025).

Permit Program	Permit Applications Received	Active Applications (carried over from previous period)	Permit Applications Deemed Complete	Total Decisions Made	Decisions Made within 90 Days (from initial application)	Decisions Exceeding 90 Days (from initial application but within 90 days of a complete application)	Decisions Exceeding 90 Days (from a complete application)	Withdrawn Applications	Active Applications (at the end of reporting period)	Median Days to Decision from Complete Application (new applications)	Median days to Decision from Complete Application (permit modifications)
Water Appropriations ²	479	67	490	420	404	8	8	66	60	3	1
Public Waters Work ²	234	56	252	228	166	44	18	14	48	20	1
Aquatic Plant Management ³	5,530	71	5,514	5,393	5,036	121	236	105	103	N/A	1
Invasive Aquatic Plant Management	0	0	0	0	0	0	0	0	0	N/A	N/A

² New permit applications are assumed to be Tier 2 but may later be classified as Tier 1 (general permit authorization permit class) during permit evaluation that occurs after the reporting period. When this happens, the value for "applications at the end of reporting period" from a prior report will not match the value of "Active applications carried over from previous period" on the current report.

³ Aquatic plant management permits include restoration permits.

Permit Program	Permit Applications Received	Active Applications (carried over from previous period)	Permit Applications Deemed Complete	Total Decisions Made	Decisions Made within 90 Days (from initial application)	Decisions Exceeding 90 Days (from initial application but within 90 days of a complete application)	Decisions Exceeding 90 Days (from a complete application)	Withdrawn Applications	Active Applications (at the end of reporting period)	Median Days to Decision from Complete Application (new applications)	Median days to Decision from Complete Application (permit modifications)
Endangered Species Takings	0	0	0	0	0	0	0	0	0	N/A	N/A

DNR Actions and Planned Actions

DNR has consistently achieved a high compliance rate with the statutory permitting goals since first reporting results on August 1, 2011. DNR works to continue improving overall permitting performance. For 2024, DNR updated the reporting systems that track data for this report to ensure continued accuracy and data integrity.

Coordinated Project Plans

Pursuant to [Minn. Stat. 84.0265](#) and [2024 Minn. Laws Chap. 116 Art. 7 Sec. 1 Subd. 6\(d\)](#), DNR must report on work the agency conducted around coordinated project plans. In FY25, DNR did not receive any formal requests for coordinated project plans. DNR is developing a formal process for coordinated project plan requests and working with partner agencies, such as the Minnesota Pollution Control Agency, to ensure process alignment across departments.
