

Stoney Brook Fishing Access

Access is available at Fritz Loven Park and at a small pull-off along County Rd 78. MN DNR fishing easements are along most of the stream within the primary trout water except for a small portion in the southwest corner of Section 8. Fritz Loven Park has picnic areas and trails in addition to trout fishing. The primary reach for trout extends from the Co. 78 access downstream to the bridge in Fritz Loven Park. From County Rd. 29 downstream to the mouth all brook trout must be immediately released.
