

## Meeting 5. Enforcement and Regulations

	Northshore Charter Captains Association	Duluth Charter Fishing Guides	Kamloops Advocates	Arrowhead Fly Fishers	Independent	Lake County	Isaak Walton
<b>Recommendation on enforcement</b>	Joint enforcement between states	Adequate	Keep up the good work	Greater presence during RBT run			
<b>Rationale</b>	Cost savings			Increased compliance			
<b>Other comments</b>							
<b>Regulation changes</b>	3 lines/person; Season to 1st Sunday in Oct.; Increase or maintain LAT limit; 2 day possession limit	LAT season to Oct 15; MN1 designated for sportfishing; 3 lines/person; Guide license should be required by all MN guides not just on LS; Remove "commercial" from guide license	Continuous LAT season; Eliminate sanctuaries; Make river seasons and limits uniform with little reduction to duration and limit	Drop to 5 fish aggregate limit on inland streams and lakes	Combine BKT BNT 5 fish aggregate and possession limit above; 1 per species below; Remove SPT regs; 10" min RBT combined with BKT and BNT above; LAT 2 fish limit with 1 over 25"; Extend LAT through 1st weekend in Oct	Eliminate aggregate limits; Limited STT harvest; Close fall season for LAT to protect spawners; Oppose LAT length limit and 2 fish bag	Carlton Co. to 5 trout; NS tribs limit to 5 trout; Protect some tribs with fly only and catch and release; Clipped RBT 2 fish limit
<b>Rationale</b>	Same as WI	LAT are recovered; Netting would have negative impact on sportfishing; STT are released dead; 3 lines would benefit small boat angler	Forage population and smolts suffering predation from LAT; No harvest makes sanctuaries unnecessary		BKT and BNT spawn about the same time; 10" should protect smolts; Extended LAT season benefiting shore angler	LAT too healthy to reduce bag and limit size.	BKT overfishing; protect larger spawning fish and quality angling; More equitable sharing RBT with 2 fish limit
<b>Other comments</b>					Leave Kadunce and KR sanctuaries; they protect fish from harassment; May 15 to Sept on Little Knife OK; STT harvest must protect 1st time spawners; possible punch card system for regulating harvest of STT		More emphasis on catch and release.
