

# Resource Report Card

## *Southeast MN Trout Stream Management*

### GOAL 4

Increase communication efforts so that information is readily available to constituents and fisheries professionals.

Public information

### ACCOMPLISHMENT HIGHLIGHTS: 2004-2009

- Published "Trout Angling Opportunities in Southern and Central Minnesota," a 68-page booklet with text and maps detailing 206 trout streams and 14 trout lakes in south and central Minnesota.
- Numerous presentations to state and regional angling groups, students, landowners and others.
- Conducted electrofishing demonstrations for variety of groups to highlight fisheries management techniques.

### STRATEGIC APPROACHES: 2010-2015

- Enhance and augment information on DNR website, and explore further use of electronic media for information sharing.
- Continue outreach and education efforts through schools, county fairs, state parks and other venues.
- Participate in planning for proposed National Trout Learning Center in Preston, MN.
