### Please check the appropriate boxes:

- I have read the application and discussed this proposed project with the above listed Organization Contact Person.
- For work on easements, the private landowner has been contacted and has given support and approval for this project.

### A Natural Heritage Database review was completed and found this project:

to have no features within one mile.

to have features within one mile, but project is not likely to adversely affect those features. I have listed the features below and recommended the following minimization strategy:

is likely to adversely affect Natural Heritage features. I feel that this project is important and should be forwarded to DNR Ecological Resources staff for further review.

I do not have access to the Natural Features database and will forward this completed form to CPL Staff at [LSCPLGrants.DNR@state.mn.us](mailto:LSCPLGrants.DNR@state.mn.us) at least 10 days prior to the application deadline to complete the review.

## CPL Land Manager Review and Approval Form

**I have discussed what role my office will be expected to have in this project and find that the project, as described will require:**

- minimal or no involvement from my office for completion.
- a commitment of involvement by staff that is reasonable and can be accomplished with current staffing levels and workload.
- an amount of staff involvement that cannot be committed during the project time period with current staffing levels. Unless additional staffing can be committed from other offices, Divisions or appropriate partners, I feel this project cannot be completed within the project timeline to our desired standards.

**Permits**

I have discussed permits and requirements that the applicant may be responsible for.

**Invasive Species**

- I understand that [DNR Operational Order 113- Invasive Species](#) applies to all CPL funded projects regardless of activity, land type or ownership.
- I reviewed and discussed [DNR Operational Order 113- Invasive Species](#) with the applicant and will monitor compliance.

**Cost**

I have discussed the cost of completing this project with the applicant. The cost per acre/ total project cost is reasonable for the type of work and the area in which it will be conducted.

**SHPO**

If determined necessary by CPL staff, either I or the applicant will be responsible for submitting all project information to the State Historic Preservation Office.

**For Acquisitions Only:**

- This project is for an acquisition to be transferred to a public agency by applicant:
  - My organization does not require any Initial Development Plan (IDP) activities or facilities for new properties.
  - My organization requires IDP on new properties and I have discussed the IDP work that is required with the applicant.

**Complete the following cost tables (required work to bring to agency standards).**

## CPL Land Manager Review and Approval Form

### Upon final review of this project:

I find this project to be consistent with sound conservation science. This work will benefit area fish, game and wildlife by restoring, enhancing or protecting forests, wetlands, prairies and habitat and is consistent with the management or stewardship plan for this land. (APPROVAL)

I find that this project does not follow the management or stewardship plan for this land and does not fit within the long range goals for this land at this time on the local level. (DECLINE)

I find that this project should be sent up to a higher level within the agency for further review and decision. I have forwarded the Project Planning Form and this Review and Approval Form for further review.

By checking this box and signing my name below I certify that I have met with the above applicant and discussed the proposed project and have provided feedback to the applicant. I understand I must provide this document as a PDF with my original signature on it to the applicant by the application deadline in order to submit a complete application.

I understand if this project is funded I will be required to post a Clean Water Land & Legacy Amendment logo sign at access point(s) to each land unit covered under this project. The location of the sign at the access point(s) will be at my discretion and the sign(s) will be provided to me by the applicant.
