

- 1 PARKING LOT IMPROVEMENTS
- 2 VAULT TOILET
- 3 PAY BOX/ WAYFINDING
- 4 TRASH/RECYCLING
- 5 STONE WALL
- 6 INTERPRETIVE CENTER FOOTPRINT
- 7 INTERPRETIVE SIGN
- 8 EXISTING SMALL POND
- 9 BIKE RACKS
- 10 SIOUX QUARTZITE BLUFF

Pros

- Least amount of disturbance to natural resources and habitat; disturbance is kept to south side of trail for vault toilet
- Least amount of maintenance
- Minimal impact on landscape

Cons

- Majority of Interpretive Center structure removed due to structural deficiencies

In this concept, the Interpretive Center is mostly removed except for the stone retaining walls that can be safely preserved. The Department will resurface the parking lot and add trailhead amenities like a vault toilet, seating, and bike racks. These amenities are placed close to the parking lot and out of the viewshed from the picnic area and Eagle Rock Vista.
