Checklist created by Robert B. Janssen, Jerry Bonkoski and MNDNR. Data was gathered from MNDNR staff observations, public observations and Minnesota Ornithologist's Union records. Nomenclature and organization of checklist based off of the *Check-list of North American Birds* (7th edition) as currently supplemented.

BIRD CHECKLIST

FATHER HENNEPIN STATE PARK

Birding at Father Hennepin State Park

This park is located on the southeast shore of Mille Lacs Lake, making it a great place to view waterfowl and shorebirds. Each spring and fall the lake serves as a stopover for flocks of migrating ducks, geese and swans.

Hike to Pope Point to look for eagles, loons, osprey, or even rare common terns flying overhead. The island just off shore is one of the few places in Minnesota where the common tern nests. Trails that wind through hardwood forest are habitat for songbirds, woodpeckers and hawks. The wetland area near the park entrance also provides great birding opportunities.

Key

Occurrence

Sp - Spring (Mar—May)

S - Summer (Jun—Jul)

F - Fall (Aug—Nov)

W - Winter (Dec—Feb)

Abundance

C - Common (Present, relatively easy to find)

U - Uncommon (Present, not certain to be seen)

O - Occasional (Infrequent, may not return each year)

R - Rare (Observed at least once, may not return)

Date: Enter the date you saw the bird.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
