BIRD CHECKLIST

FLANDRAU STATE PARK

Birding at Flandrau State Park

The park's many walking trails along the Cottonwood River are excellent for birding. This river corridor is especially attractive to warblers, flycatchers, vireos and thrushes. A variety of woodland forest undergrowth and wetlands provide excellent habitat for migrating and nesting birds. The white-eyed vireo and cerulean warbler have been recorded in the park. Wild turkeys and red-shouldered hawks can be found along wooded hillsides.

Key

Occurrence

Sp - Spring (Mar—May)

S - Summer (Jun—Jul)

F - Fall (Aug—Nov)

W - Winter (Dec—Feb)

Abundance

C - Common (Present, relatively easy to find)

U - Uncommon (Present, not certain to be seen)

O - Occasional (Infrequent, may not return each year)

R - Rare (Observed at least once, may not return)

Date: Enter the date you saw the bird.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
