Birding at Grand Portage State Park

Grand Portage State Park contains 300 acres of boreal forest along the Pigeon River on the Minnesota-Ontario border. There are only two trails in the park but the one leading to the High Falls offers fantastic birding! Over 20 species of warblers have been recorded along this trail.

Bald Eagles are often seen flying over the river from the observation deck behind the visitor center. Merlins are regular nesters in the park. The Pigeon River widens to form a number of quiet pools before flowing into Lake Superior. These pools are good areas for water birds such as ducks, mergansers, herons, gulls and kingfishers.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)
