Checklist created by Robert B. Janssen, Jerry Bonkoski and MNDNR. Data was gathered from MNDNR staff observations, public observations and Minnesota Ornithologist's Union records. Nomenclature and organization of checklist based off of the *Check-list of North American Birds* (7th edition) as currently supplemented.

BIRD CHECKLIST

LAKE BEMIDJI STATE PARK

Birding at Lake Bemidji State Park

The park's diverse habitat includes lakeshore, wetlands and woodlands that make it a great birding destination year-round.

Look for loons, mergansers, grebes, swans, geese and ducks along the lakeshore of Lake Bemidji. Walk the quarter-mile boardwalk that winds through a boreal bog to Big Bog Lake and search for vireos, woodpeckers, warblers, flycatchers, thrushes and the occasional common loon or trumpeter swan. A favorite is to view the bald eagle nest in the park from the Paul Bunyan State Trail.

Key

Occurrence

Sp - Spring (Mar—May)

S - Summer (Jun—Jul)

F - Fall (Aug—Nov)

W - Winter (Dec—Feb)

Abundance

C - Common (Present, relatively easy to find)

U - Uncommon (Present, not certain to be seen)

O - Occasional (Infrequent, may not return each year)

R - Rare (Observed at least once, may not return)

Date: Enter the date you saw the bird.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
