Indigo Bunting	U	U	U		

Checklist created by Robert B. Janssen, Jerry Bonkoski and MNDNR. Data was gathered from MNDNR staff observations, public observations and Minnesota Ornithologist’s Union records. Nomenclature and organization of checklist based off of the *Check-list of North American Birds* (7th edition) as currently supplemented.

BIRD CHECKLIST

TETTEGOUCHE STATE PARK

Birding at Tettegouche State Park

Miles of park trails wind through habitat that attracts over 140 bird species. Twenty-three species of Neotropical warblers occur here. The park is best known to the birding community for its large population of breeding black-throated blue warblers. These birds can be found along the trails leading to Mic Mac and Tettegouche lakes.

The trail to Shovel Point, overlooking the Lake Superior shoreline, is a good spot to observe spring and fall migrants. The mouth of the Baptism River is great for water birds such as grebes, loons, goldeneyes, mergansers and other species of ducks.

Key

Occurrence

Sp - Spring (Mar—May)

S - Summer (Jun—Jul)

F - Fall (Aug—Nov)

W - Winter (Dec—Feb)

Abundance

C - Common (Present, relatively easy to find)

U - Uncommon (Present, not certain to be seen)

O - Occasional (Infrequent, may not return each year)

R - Rare (Observed at least once, may not return)

Date: Enter the date you saw the bird.

Bird Identification Tips

When you observe a bird, make note of at least three characteristics.

Location: Where did you see the bird? (water, forest, feeder, lower branch, tree trunk, etc.)

Body size and shape: Compare to a known bird. (smaller than a...bigger than a...plump like a...slender like a...) Look at tail, legs and bill. (long, short, thick, thin, curved, straight)

Colors and markings: Look on wings, tail, back, belly, rump and head. (stripe above eye, white spot on tail, etc.)

Sounds and movements: How do they act and sound? (travel alone or in groups, in-flight wing position - soaring, flapping, flap and glide, etc.)
