

# MINNESOTA 2024 WALK-IN ACCESS HUNTING ATLAS

A \$3 Walk-In Access  
Validation is required.  
ELS Code 190.

# Welcome to Minnesota's Walk-In Access Program

“Minnesota is fortunate to have an abundance of natural resources providing opportunities for outdoor recreation. The Walk-In Access Program creates a partnership with private landowners to allow the public access to additional acres of wildlife habitat. I urge everyone to take advantage of this great opportunity. A \$3 validation gives you access to around 30,000 additional acres. If you have any questions or thoughts, I would like to hear from you! Thank you for participating and supporting this program. Email me at [wia.dnr@state.mn.us](mailto:wia.dnr@state.mn.us)”

—Amber Knutson,  
DNR Walk-In Access  
Coordinator

Walk-in Access (WIA) provides public hunting on private land and compensates landowners for providing that access. Through WIA, approximately 30,000 acres will be open for public hunting from Sept. 1 to May 31, on more than 280 sites in western, central and southern Minnesota.

While the majority of WIA parcels include grassland and wetlands, river bottom and forested parcels are also enrolled. This enables hunters to find waterfowl, upland birds, small game and big game species.

## VALIDATION REQUIRED

To legally access WIA land, hunters of all ages must purchase and possess a \$3 Walk-in Access Validation (Code 190). Like hunting licenses, the validation can be purchased through license agents across the state, by phone at 888-665-4236, or online at [mndnr.gov/licenses/hunting](http://mndnr.gov/licenses/hunting).

The validation helps monitor the number of hunters using WIA land. Hunters may be contacted to help the Minnesota Department of Natural Resources (DNR) understand more about their experiences on WIA land and interest in future program enhancements. The \$3 fee does not cover costs associated with purchasing access, installing boundary signs or providing online or printed maps of the enrolled properties.

## DATA IN THIS ATLAS IS SUBJECT TO CHANGE

At any time during the year, landowners may opt out of WIA for a variety of reasons including land sales and other property transitions. That means a site shown in this atlas could be closed even after the atlas is published. Additionally, some sites may still be open for hunting but with habitat disturbance caused by conservation program requirements, noxious weed control or other considerations. It is also possible that sites may be added after the atlas is printed. A good rule of thumb: printed and electronic maps are a great starting point when planning for your hunt, but the only way to truly know that a parcel is enrolled and open to public access is to see it in real life. No signs means no access. For the most current data, visit the WIA website at ([mndnr.gov/walkin](http://mndnr.gov/walkin)).

## MAPS AVAILABLE

Visit the WIA website at [mndnr.gov/walkin](http://mndnr.gov/walkin) for a printable atlas of WIA sites by county, aerial photos of each site, and interactive maps such as Google Earth and Google Maps.

Smartphones can access the DNR Recreational Compass to locate sites.

Printed copies of the WIA Atlas are available at DNR offices, county Soil and Water Conservation District offices, and local commerce and tourism outlets across the state. They are also available by calling the DNR at 888-MINNDNR (646-6367).

Maps may not accurately represent the actual legal or established boundaries of public or private land. They should be used for reference only.

## USES OF WIA LAND

- WIA sites are for public hunting only.
- Individuals with a WIA validation may hunt with no landowner contact necessary from Sept. 1 to May 31.
- All hunting rules and regulations apply on WIAs, and will be enforced by DNR conservation officers.
- Motorized vehicles are not allowed on WIAs.
- Parking is along roads or in designated parking areas—be sure vehicles do not block field entrances.
- Trapping, target shooting, camping, horseback riding, fishing, dog training, fires and other similar activities are not allowed by the public.
- The landowner retains the right to engage in, or give written permission for another individual to engage in, those activities listed above and other limited activities any time during the year, as long as they do not impede public hunting.
- Because most of the land is in the prairie ecoregion, some management such as mowing/haying does take place. Please scout prior to hunting to determine if land has proper habitat for game species.

# SHARE THE PASSION

## #huntmn

### ENROLLING LAND

WIA is targeted toward lands with high quality natural cover. This may include, but is not limited to, parcels already in a conservation program such as Conservation Reserve Enhancement Program (CREP), Conservation Reserve Program (CRP), Reinvest in Minnesota (RIM) and the Wetlands Reserve Program (WRP). Only small inclusions of cropland or hay land may be present in WIA parcels.

### RESPECT THE LAND

Please be respectful of the land and the people who own the land. This program depends on landowner participation to be successful. The WIA Code of Conduct can be found below.

### PROGRAM FUNDING

This program began in 2011 when the state received a grant from the United States Department of Agriculture—Voluntary Access Program. A second grant was awarded to help fund the program from 2015 to 2018. Minnesota is now into its third grant award, which will fund the WIA Program through 2023, under number 69-3A75-16-509. Additional funding includes:

- A one-time appropriation from the Minnesota State Legislature in 2012
- A \$5 surcharge on nonresident hunting licenses
- Donations of \$1, \$3 or \$5 made by hunters purchasing deer and small game licenses

### WALK-IN ACCESS CODE OF CONDUCT

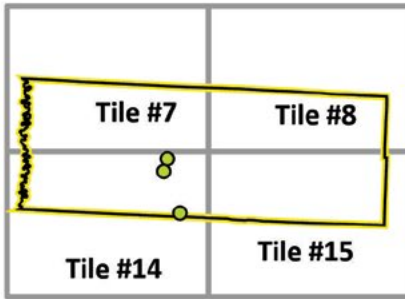

Please follow this code of conduct while hunting these privately owned lands:

1. Only hunt areas posted with WIA signs. Know the field boundaries and do not trespass on surrounding private lands.
2. Do not contact landowners of WIA parcels for permission to hunt.
3. Only hunt WIA parcels on foot.
4. Park in designated parking areas or on the shoulder of the road. Do not block access to farm fields or pastures.
5. Maintain a safe buffer. Do not shoot near farmsteads, livestock or buildings.
6. Leave gates and fences as they were found.
7. Report unlawful activities.
8. Be ethical, courteous and safe. Abuse it—lose it.
9. Do not construct or erect permanent blinds, stands or other structures. Portable structures are allowed as long as no damage is done to trees and they are removed when the hunter leaves the WIA.
10. Do not litter. Pack out spent shotgun or rifle casings.

# Conservation Officer Patrol Areas Covering the Walk-In Access Counties

This map displays the Conservation Officer (CO) patrol areas covering the counties in the WIA program. CO contact information listed here is subject to change. For the most current CO contact information, visit [mndnr.gov/officerpatrolareas](http://mndnr.gov/officerpatrolareas) or contact the DNR Information Center at 651-296-6157 or toll-free 888-646-6367. Please refer to the following page for specific contact information for each Conservation Officer patrol area. In the event of an emergency, call 911.
