\*The identification of mussel species can be difficult; qualified surveyors must pass a mussel identification exam. A permit is required to handle live mussels. Please contact Bridget Henning-Randa, at [bridget.henning-randa@state.mn.us](mailto:bridget.henning-randa@state.mn.us), prior to any mussel survey work.

The above is a list of individuals who are considered qualified by the Minnesota Department of Natural Resources (DNR) to conduct surveys for endangered and threatened plants within the state of Minnesota. Please note that the DNR qualifies individuals, not firms. The DNR maintains this list to ensure reliable survey results, which ensures the DNR's ability to uphold the Minnesota Endangered Species Statute (Minnesota Statutes, section 84.0895) and associated rules (Minnesota Rules, part 6212.1800 to 6212.2300 and 6134), and avoids any potential delays due to misidentified or overlooked threatened or endangered species.

This list is not intended as an endorsement of any one individual over another. There may be other individuals who are qualified to do rare species surveys. Individuals who would like to be placed on the list should contact Bruce Carlson at [bruce.carlson.state.mn.us](mailto:bruce.carlson.state.mn.us).
