Guide to the Herpetofauna of Southwest Minnesota

Region 4 - South

This preliminary guide has been prepared as a reference to the occurrence and distribution of reptiles and amphibians in Region 4 - South of Southwestern Minnesota. Taxonomy and identification are based on "A Field Guide to Reptiles and Amphibians" by Roger Conant (Second Edition, 1975). Figure 1 is a map of the region.

Counties Included: Cottonwood, Faribault, Jackson, Lincoln, Lyon, Martin, Murray, Nobles, Pipestone, Rock and Watonwan.

SPECIES LISTTurtles

Common snapping turtle
Western painted turtle

Lizards

Northern prairie skink

Snakes

Western plains garter snake
Red-sided garter snake
Plains western hognose snake
*Western smooth green snake
Western fox snake
Bullsnake

Salamanders

*Gray tiger salamanger
Eastern tiger salamander

Toads

American toad
*Great plains toad

Frogs

*Blanchard's cricket frog
Boreal chorus frog } s.s.
Western chorus frog }
Northern leopard frog
Bull frog

s.s. - single species

(?) - hypothetical species - reports needed

* - special interest species - reports needed

Summary

A total of 16 species have been recorded in Region 4 - South. Two subspecies of the tiger salamander and the chorus frog are present.

Species of special interest in this region include the gray tiger salamander, great plains toad, western smooth green snake, and Blanchard's cricket frog. Any sightings of these should be documented and sent to the nongame supervisor.

County records for this region are given on the following pages. If you encounter any new county records, the specimen should be captured and either photographed from several angles or preserved in isopropyl alcohol. Record the collector's name and address, date, county, township, range, section number (or distance and direction from nearest town), and the habitat in which the animal was found. The nongame supervisor should be contacted concerning disposition of specimens.

Unless otherwise specified, all county records are derived from Reptiles and Amphibians of Minnesota by Walter J. Breckenridge.

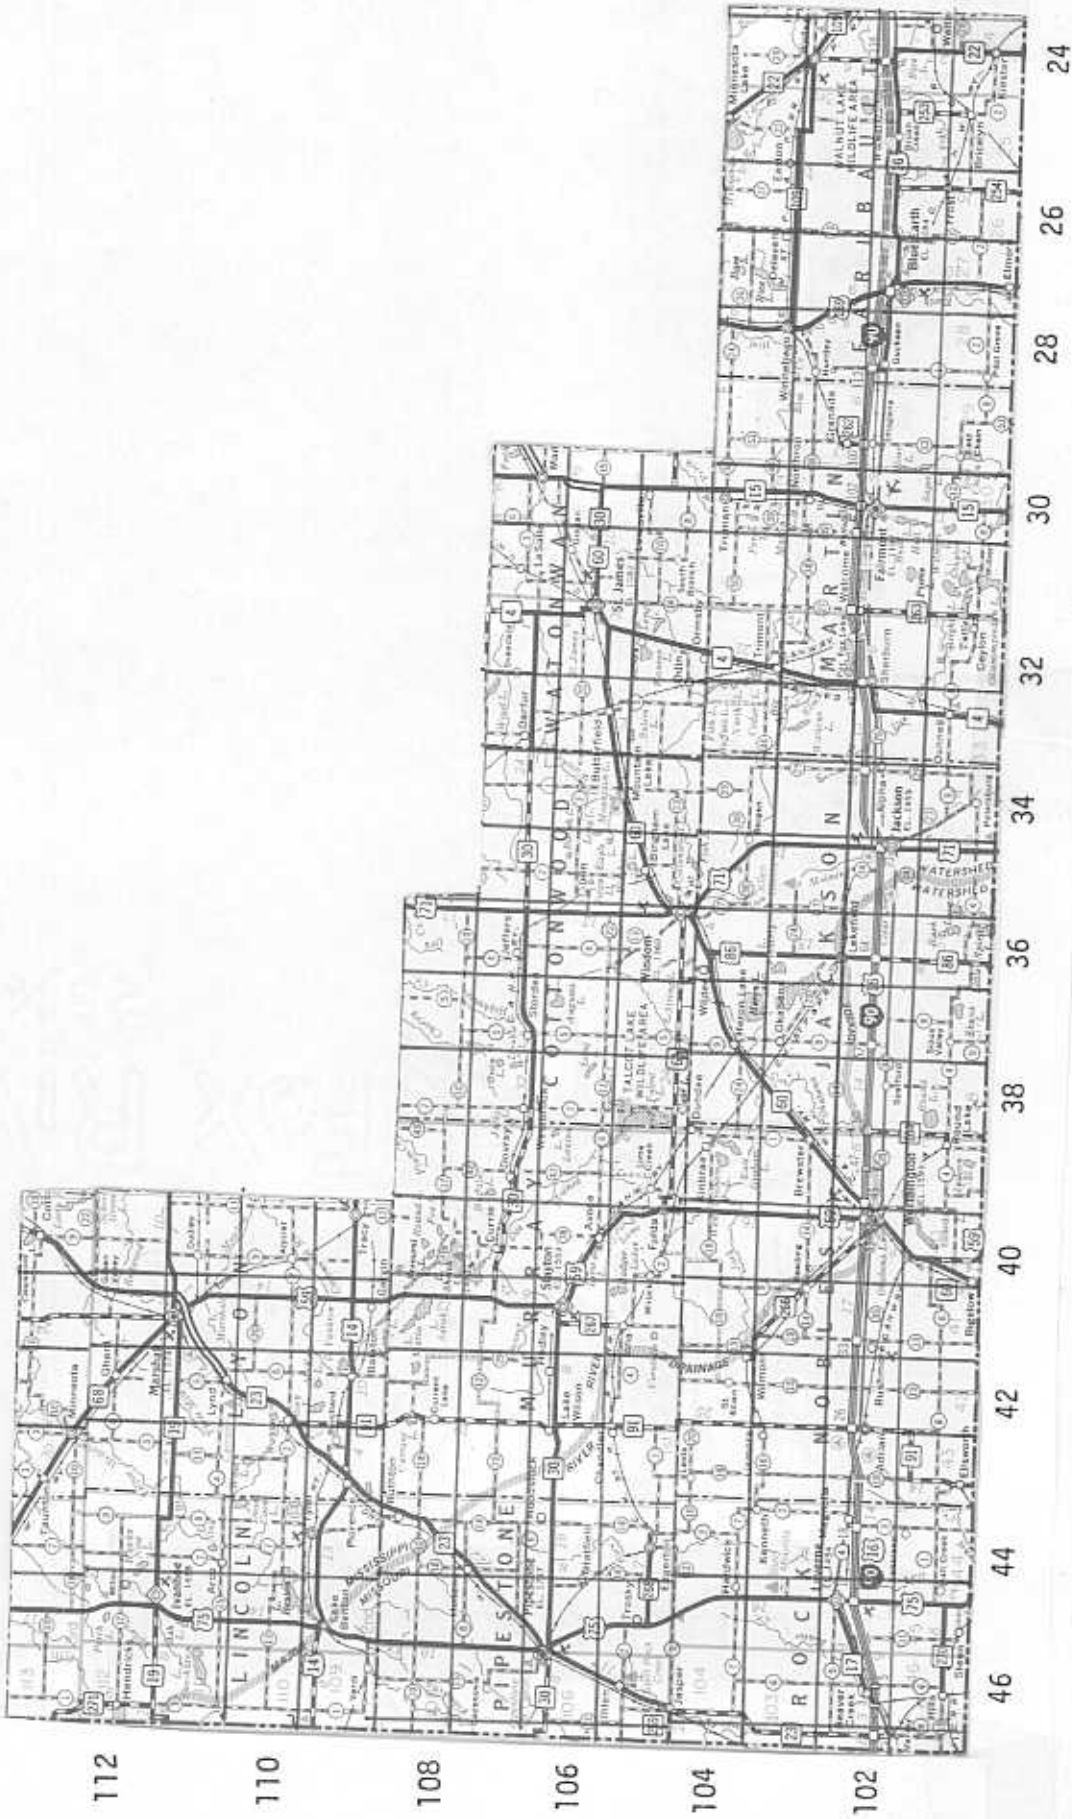

Figure 1. Map of Region 4-South. Township numbers are shown in the left margin and range numbers are shown along the bottom.
