Proclamation

- WHEREAS: The health and longevity of Minnesota's trees are being affected by changing temperatures and precipitation, more extreme weather events, and increasing pressure from pests, diseases, and invasive species; and
- WHEREAS: Minnesota is at risk to lose over one billion ash trees due to emerald ash borer, which would impact carbon storage, habitat, water movement, and water quality; and

- WHEREAS: A healthy tree canopy decreases temperatures along streets providing cooler spaces in the summertime; and
- WHEREAS: Trees reduce stormwater runoff and act as a filter, preventing sediments and pollutants from washing into waterways; and
- WHEREAS: Minnesotans can help build resilient communities and reduce the negative impacts of climate change by planting and caring for trees One Tree at a Time.
