

Get in Touch With Trees

Project Learning Tree Activity #2

State of Minnesota 2009 Science Standards

0.1.1.2.1 Use observations to develop an accurate description of a natural phenomenon and compare one's observation and descriptions with those of others.

0.4.1.1.1 Observe and compare plants and animals

1.1.1.1.1 When asked, "How do you know?" students support their answer with observations.

1.1.1.1.2 Recognize that describing things as accurately as possible is important in science because it enables people to compare their observations with those of others.

2.2.1.1.1 Describe objects in terms of color, shape, size, texture, weight, flexibility, strength and type of materials in the object.

2.4.2.2.2 Describe and sort plants into groups in many ways, according to their physical characteristics and behaviors.

3.1.3.2.1 Understand that everybody can use evidence to learn about the natural world, identify patterns in nature, and develop tools.
