Back of beaver card.

Where in the Minnesota do beaver live?

What animals eat beaver?

What other animals and plants live in the wetland with beaver?

In what ways do beaver depend on these other animals and plants?

How do beaver influence their environment?

Belted kingfisher

Back of belted kingfisher card.

Where in the Minnesota do belted kingfishers live?

What animals eat belted kingfishers?

What other animals and plants live in the wetland with belted kingfishers?

In what ways do belted kingfishers depend on these other animals and plants?

How do belted kingfishers influence their environment?

Marsh wren

Back of marsh wren card.

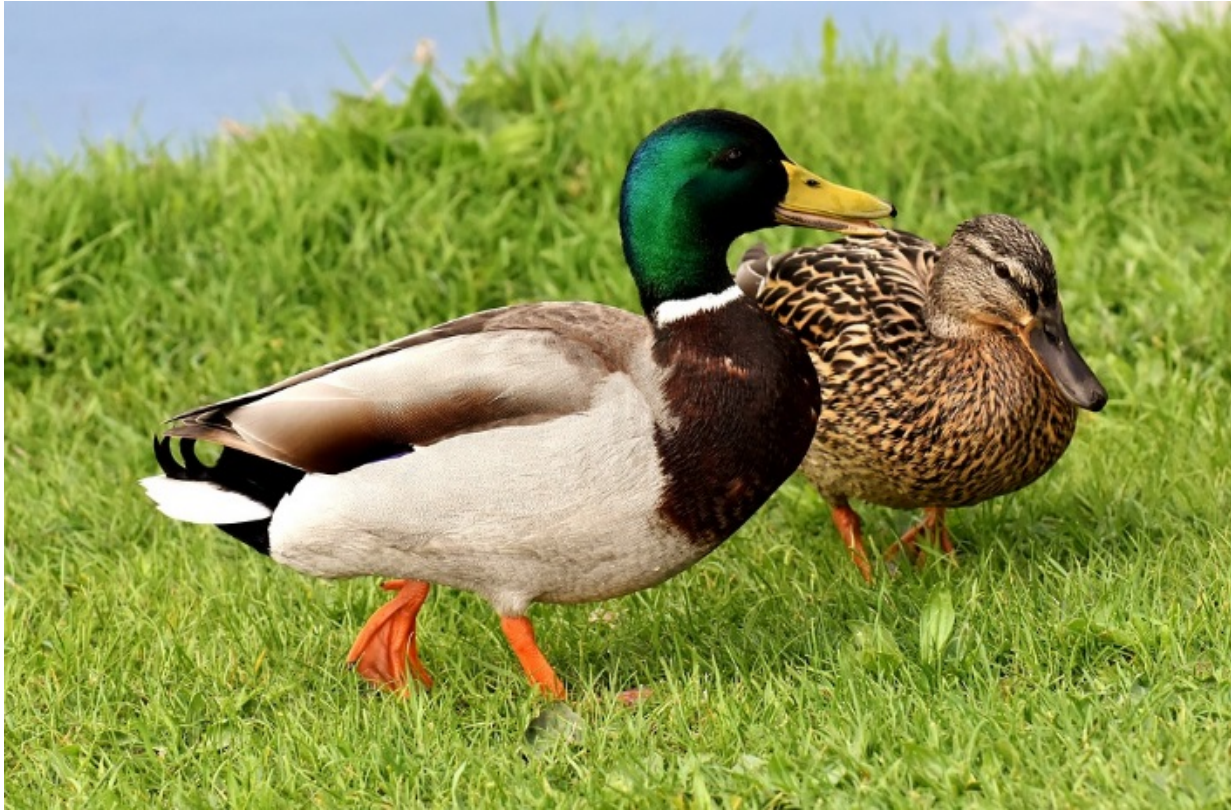

Where in the Minnesota do marsh wrens live?

What animals eat marsh wrens?

What other animals and plants live in the wetland with marsh wrens?

In what ways do marsh wrens depend on these other animals and plants?

How do marsh wrens influence their environment?

Mallard ducks

Back of mallard duck card.

Where in the Minnesota do mallard ducks live?

What animals eat mallard ducks?

What other animals and plants live in the wetland with mallard ducks?

In what ways do mallard ducks depend on these other animals and plants?

How do mallard ducks influence their environment?

Mink

Back of mink card.

Where in the Minnesota do minks live?

What animals eat minks?

What other animals and plants live in the wetland with minks?

In what ways do minks depend on these other animals and plants?

How do minks influence their environment?

Northern leopard frog

Back of northern leopard frogs card.

Where in the Minnesota do northern leopard frogs live?

What animals eat northern leopard frogs?

What other animals and plants live in the wetland with northern leopard frogs?

In what ways do northern leopard frogs depend on these other animals and plants?

How do northern leopard frogs influence their environment?

Osprey

Back of osprey card.

Where in the Minnesota do osprey live?

What animals eat osprey?

What other animals and plants live in the forest/wetland with osprey?

In what ways do osprey depend on these other animals and plants?

How do osprey influence their environment?

Red-winged blackbird

Back of red-winged blackbird card.

Where in the Minnesota do red-winged blackbirds live?

What animals eat red-winged blackbirds?

What other animals and plants live in the wetlands with red-winged blackbirds?

In what ways do red-winged blackbirds depend on these other plants and animals?

How do red-winged blackbirds influence their environment?

River otter

Back of river otter card.

Where in the Minnesota do river otters live?

What animals eat river otters?

What other animals and plants live in the wetland with river otters?

In what ways do river otters depend on these other plants and animals?

How do river otters influence their environment?

Silver maple

Back of silver maple card.

Where in the Minnesota do silver maples live?

What animals eat silver maples?

What other animals and plants live in the forest/wetland with silver maples?

In what ways do silver maples depend on these other animals and plants?

How do silver maples influence their environment?

Water strider

Back of water strider card.

Where in the Minnesota do water striders live?

What animals eat water striders?

What other animals and plants live in the wetland with water striders?

In what ways do water striders depend on these other animals and plants?

How do water striders influence their environment?

White water lily

Back of white water lily card.

Where in the Minnesota do white water lilies live?

What animals eat white water lilies?

What other animals and plants live in the wetland with white water lilies?

In what ways do white water lilies depend on these other animals and plants?

How do white water lilies influence their environment?
