non-emergency (651) 257-4100

NOTE: Since 1999, the use of personal watercraft (Jet Skis, Wave
Runners, etc.) has been prohibited by the National Park Service

NOTE: Due to the possible spread of zebra mussels into the upper
reaches of the St. Croix, the National Park Service has restricted
most boat traffic originating downstream from passing the check-
point near the Arcola High Bridge (Canadian National Railroad) - mile 28.6. Boaters may wish to check the National Park Service’s St. Croix website www.nps.gov/sacn for more up-to-date information.

**Slow speed zone**

A special water surface use regulation is enforced on the St. Croix River between the Taylors Falls dam and the Arcola Sandbar at the mouth of the Apple River. This area is designated as a “slow speed zone” where motorboat operation must be restricted to operating “at a leisurely speed, less than planing speed, whereby the wake or wash created by the motorboat is minimal.” Please obey all rules.

There is also a “slow - no wake” rule in effect within 100 feet of all shore, including islands, and within 100 feet of swimmers.

When water levels rise to 683 feet at Stillwater, a “slow - no wake” restriction goes into effect on the entire Lower St. Croix from Taylors Falls to Prescott. Signs at public accesses and marinas will notify the public if this restriction is imposed.

CAUTION: There is neither a channel nor buoys on this portion of the Mississippi. Also, water levels vary greatly. Boaters should take precautions to avoid damage.

No wake zones

Special “slow - no wake zones” (indicated with red hatch marks on map) are enforced in congested and hazardous areas of the river. In No Wake Zones, motorboat operation is restricted to “the slowest possible speed necessary to maintain steerage, but in no case greater than five miles per hour.” To improve safety conditions and make the river experience more enjoyable for more people, please obey the speed limits and maintain special vigilance when traveling through such zones.
