**Advanced Hunter Education Program
Use in the Vo-Ag Curriculum**

Vo-ag instructors who are certified to teach the DNR Advanced Hunter Education Program have options in administering the program in the classroom. Since the classes are taught in an academic setting, there is some latitude in how the program is administered within the classroom.

It is the Vo-Ag instructors' responsibility to teach the entire 18-hour seminar with the curriculum we have provided if a student is going to receive credit for completing the course. Additional curriculum can be added to the course as the instructor sees fit, as long as all the provided course material is included.

Options for the Vo-Ag instructor:

1. If you wish to have an inventory of the AHE Student Manuals for repeated classroom use, please fill out the bottom portion of this form requesting the manuals. The costs is \$15.00 per manual ordered. Make the check out to DNR and mail to: **DNR – Division of Enforcement, 15011 Hwy 115, Little Falls, MN 56345.**
2. You must register your AHE Vo-Ag course. Go to the bottom of the page and click on Register your course, at [Register your course](#). Fill in all of the information required, including your email address so we can reply that we have received your request.
3. All students who complete the entire 18-hour seminar should be submitted on a DNR Roster to the Camp Ripley DNR office. Students who are submitted on a roster will be certified in the Advanced Hunter Education program. Students who wish to receive a certificate and patch should submit a \$5.00 payment to the instructor. Those fees should be submitted with the Instructor and Student Rosters, which are located on the DNR website at [Instructor and Student Rosters](#). Please mark "PAID" next to the student names indicating who should receive a certificate.
4. If students desire to keep the student manual, you should collect \$15.00 per manual. Order as many manuals as you need for the students in your class.

Number of AHE Student Manuals Needed: _____ X \$15.00 per manual = \$ _____
