Work Plan for 2021

Planned activities and deliverables:

1. Establish rotating chair assignment for 2021-2022
2. Write a 2021 work plan
3. Finalize and sign off on Team Charter
4. Maintain GeoWRT web page
5. Propose roles to the team
6. Reach agreement among the team on roles
7. Maintain team SharePoint site
8. Move to Teams as the collaboration platform for the GeoWRT
9. Work to gain recognition of foundational geospatial water resources datasets
10. Function as a conduit to funnel communications between DNR data users and the 3D Geospatial Committee

Roles and responsibilities:

Resources:

Workgroup needs:

Involvement of members to accomplish goals that are set

Dependencies and interrelationships:

Volunteers to coordinate meetings. This is a DNR and MNIT team, so support from both sides is needed.

Risks:

Lack of volunteers willing or able to keep this team active.
