

Line 3 DNR Application Processing Schedule – 03/1/2019

Process Step	Schedule
Post DNR Permit Applications on Web Portal	March 4-8
Tribal Government Review of Applications	March 18 – May 17 (60 day review period)
LGU/Agency Review of Applications	March 18 – May 17 (60 day review period)
Public Comment Period on Applications (online comment portal only)	March 18 – May 17 (60 day comment period)
Tribal Government Consultation Meetings	April
3 WebEx Public Informational Meetings (viewing locations available)	March / April
Review and Consideration of LGU, Agency, Tribal, and Public Comments	May - July <i>(The time needed is highly dependent on the number and complexity of comments received)</i>
Obtain Additional Information from Applicant if Needed, Develop Permit Conditions and Related Documents for Decisions	July – November
Final Decisions	November 2019

Blue highlight – Tribal review or consultation Green highlight – LGU, agency, or public review/engagement

Considerations:

- This timeline is dependent on timely submittal of information from the company as needed throughout the process.
- The public, LGU, agency, and tribal application review includes Utility Crossing License (land and water), Water Appropriation (HDD/Hydro, dewatering, dust control, Gully 30), Public Water Works (wetlands, Willow River bridge), Fen Management Plan, and Threatened and Endangered Species Takings.
- The application review with tribes, LGUs, other agencies, and the public does not include several short and long term leases that would be needed on state lands to facilitate construction and maintenance.
